

Liner Queen Mary Docks Today With 11,483 On Board

**Soldiers, Sailors, Waes, Nurses And
Diplomats Come Home
On Big Liner**

NEW YORK, Nov. 9.—(INS)—The liner Queen Mary docked today at pier 90, North river, with 11,483 soldiers, sailors, WACs, army nurses and diplomats.

The pier was crowded with army and navy officers who made the ship's arrival a noisy and colorful event.

Aboard was Canada's Premier W. L. McKenzie, King enroute to a Sunday conference with President Truman and British Prime Minister, Clement Attlee aboard the presidential yacht.

McKenzie King, who has been in London for a series of conferences, declined to comment on the forthcoming meeting. He said he would go to Washington tonight.

Also aboard today was the army transport Santa Paula at pier 15, Stapleton, Staten Island. She carried 2,494 troops which were transferred for processing at Camp Shanks.

Most of those aboard the Santa Paula were members of the general headquarters military railway service, which had been in Africa, Persia, India, France and Germany.

Also aboard were operators and technicians of the press wireless portable transmitting station which operated after D-day.

Atomic Experts Will Meet With Truman, Attlee

WASHINGTON, Nov. 9.—(INS)—The White House said today that a group of atomic technical experts will meet simultaneously with President Truman, Prime Minister Attlee and Premier MacKenzie-King to give them advice on atomic energy.

The technicians will not participate, however, in the discussion the President will hold with the British and Canadian premiers aboard the presidential yacht on the Potomac river Sunday.

The White House said that the discussion Sunday has entirely to do with matter of policy on the future security of the atomic bomb.

learned. Allied authorities have not yet released the names of those identified.

The graves were found hidden in the undergrowth in Sandayama military cemetery in the heart of Osaka. Over each grave were wooden planks on which were inscribed incomplete identification.

Another plank planted near the hidden burial plot had this inscription: "Graves of American soldiers." The discovery of the graves of the Superfort fliers resulted from a letter which a Korean sent to Gen. MacArthur's headquarters.

Believed Executed
The Korean wrote that 18 American fliers were captured by the Japs after a Superfort raid on the night of June 5-6. The fliers were imprisoned in the basement of a government building. Two of the Americans died of wounds several days after they were captured and two others were later liberated and returned to the United States.

From the evidence gathered by American investigators it appeared that the 14 remaining fliers, who were presumed executed, lived until August 3, two days after the first atomic bomb was dropped on Hiroshima.

Internees who had been held in the same prison with the fliers said the Superfort men were marched daily from their cells to the headquarters of the dreaded Jap secret police, the Kempeitai.

When they returned to their cells, the fliers showed signs of having been beaten with bamboo sticks, according to witnesses.

This treatment continued until August 8 when the 14 were taken from their cells and blindfolded. Internees said that the fliers never returned.

Lt. James Borovilos Home On Furlough

Lt. James Borovilos, son of Mr. and Mrs. Thomas Borovilos, of 372 East Washington street, has returned from the European Theatre of Operations and is spending a 15-day furlough at home with his parents.

Lt. Borovilos, serving with the Eighth Air Force as a navigator on B-24 Liberator, completed a tour of 30 missions. He wears the Distinguished Flying Cross, the Air Medal with three Oak Leaf Clusters, and the ETO battle ribbon.

Before entering the AAF in February, 1943, Borovilos attended Westminster College. He graduated from New Castle high school in 1941.

ities of helpfulness and understanding and it will always be a matter of pride to me remembering the generosity and helpfulness of our citizens."

Hospital Need Decreasing
Orville Potter, executive director of the Sponsors expressed his regret at the two officers' leaving but said, "I know they will be leaving because the need for hospital units in this country is decreasing, fortunately. It has been a pleasure to know and to work with Major Sedwick and Captain Vanderhoff. They operated a military unit with a minimum of spit and polish discipline but with a maximum of effectiveness. Without ever having to pull their rank they have commanded the respect and admiration of the men who were through the Annex. Those of us of the civilian population who had the good fortune to know these gentlemen count it a privilege. Any city would be the better for having as citizens these two young Americans who have served their country so well." Both officers were presented with wallets as a remembrance from the Sponsors.

Col. C. J. Gentzkow
Col. C. J. Gentzkow, commanding officer of the Deshler General Hospital in Butler was introduced and spoke. Said Col. Gentzkow, "Within a week's time all the patients at the Annex will either have been transferred or discharged. The need for such units as the Annex has dropped and Deshler can now care for all its patients within its own borders."

"The Annex has been a most satisfactory operation. The men we have had in charge of it have done a job but I want to pay my tribute to the people of New Castle for their warm heartedness and open handedness. It has been a demonstration of civic generosity that I have never so surpassed and New Castle will always be remembered by me with appreciation."

"New Castle people were among the very first to endow our recreation fund at the hospital with a handsome cash contribution. Immediately upon the Annex being established here your people started to aid and they have never stopped."

Captain Lee D. Nesbitt, former commanding officer of the Annex was introduced and spoke. Said Major Sedwick, "I am glad to hear you have been so successful in your efforts. I have been so successful in my efforts. I have been so successful in my efforts."

Col. W. Fulton Jackson, recently returned from overseas, was also introduced and spoke.

Sedwick And Vanderhoff
Both the officers at the Annex, Major Jack D. Sedwick and Captain J. Kenneth Vanderhoff were introduced and spoke. Said Major Sedwick, "I am glad to hear you have been so successful in your efforts. I have been so successful in my efforts. I have been so successful in my efforts."

PA NEW OBSERVES

some bachelor's buttons are still seen blooming in a number of gardens. One North Hill family even has a November crop of lettuce coming along.

Such mild weather was being experienced in New Castle last night that doors were open in the same manner as if it were summer time. Temperature was above 60 degrees.

Saturday will be observed here as Poppy Day, funds being raised for benefit of disabled veterans.

It is estimated that more than 150,000 hospital beds will be needed for World War II veterans in the next few years. At a cost of approximately \$8500 per bed it will take a lot of Victory Bond purchases to finance these hospitals. Put every dollar you can into Victory Loan bonds.

Complaint is made by North Hill residents of the attitude of motorists toward dogs in that section. Recently a dog owned by a soldier was run over on Highland avenue, the motorist paying no heed to the fact that he had struck the animal, and on another occasion in the vicinity of Lincoln avenue, a dog was struck and crippled and the motorist drove on. There is a state law which requires motorists to stop and render aid when they strike an animal.

**POSTPONE DECISION
OF CONFERENCE**

President William Green as telling the executive committee that the federation shared Lewis viewpoint. Murray asserted, however, that he would not withdraw or alter his resolution.

U.M.W. Opposed
Lewis told a news conference following a letter verbal exchange between he and Murray in the committee that the U.M.W. would not support a resolution requiring labor to bargain within the limitation of the President's wage-price program.

The body-firmness Lewis charged that the "CIO resolution sought 'perpetuate government control' of wages and profits and the fixation of wage scales at set levels in the 'emergency' period."

Lewis said: "I am opposed to labor being required to bargain within these limitations. The limitations I want are free enterprise and free competition. In the past they have acted as a limitation on prices and a brake on profits while increased efficiency and competition lowered costs to consumers."

Murray replied that his resolution called for a conference of representatives of President Truman's position that some wage increases are "imperative."

Management delegates appointed Lewis "free enterprise" speaker. One said specifically that he didn't think anybody could find much objection with it. He revised the name of the committee to a good government.

MEDICAL AUXILIARY PLANS JANUARY TEA

Lawrence County Medical auxiliary gathered Thursday afternoon at 1 o'clock at The Castleton, for their regular luncheon-meeting.

Mrs. L. W. Grossman presided following the luncheon, and an interesting report was heard from Mrs. Wilbur Flannery, on the Pennsylvania State Medical auxiliary meeting held in Philadelphia.

Plans were made for a tea, on Thursday, January 24, at the home of Mrs. E. F. Henderson, 306 Lincoln avenue, to be held in honor of Mrs. Charles J. Swalm, of Philadelphia, the Pennsylvania Medical auxiliary president.

Tables of bridge were in play during the social hour of the afternoon, and winner of the high score prize was Mrs. J. R. Cooper.

NEWLYWEDS WILL MAKE HOME HERE

When Mr. and Mrs. Edmund Sniezek returned from a brief honeymoon following their wedding in St. Joseph's church on November 4, they will take up residence at 427 Galbreath avenue, with the bride's parents, Mr. and Mrs. John Koch.

Mrs. Sniezek is the former Miss Helen Koch. Mr. Sniezek is the son of Vincent Sniezek, of 1706 Moravia street.

Their marriage was solemnized at St. Joseph's church Sunday afternoon with Rev. Fr. Francis C. Streiff officiating.

Miss Jane Sniezek, sister of the groom, attended the bride and Joseph Kulms, of Farrell, was best man.

The bride was formerly employed at the National Radiator plant. The groom was recently discharged from army service at McGuire General hospital, Richmond, Va. He spent 40 months overseas and served in the campaigns of the Solomon Islands, New Georgia Islands, Philippine Islands, and in New Caledonia and also saw action in smaller islands in the South Pacific. Before entering army service he was employed at the Irwin works near Pittsburgh.

WEDDING PLANS OF GENEVIEVE PALKO

Miss Genevieve Palko, daughter of Mr. and Mrs. John A. Palko of 297 Pearson street, has announced plans for her marriage on Sunday, November 11, to Glenn H. Lutz, C. M. 3-c, son of Mr. and Mrs. Lee G. Lutz of 1323 Pennsylvania avenue.

The wedding will be solemnized at an open church ceremony at St. John's Lutheran church at 3:30 o'clock. Rev. Louis G. Golder will officiate.

The ceremony will be followed by a reception at home.

W. A. G. Club

Thursday, November 15, the W. A. G. club will have one evening luncheon in the home of Mrs. W. F. Weltz of 102 West Madison avenue.

OAKWOOD GARDEN PROGRAM ON HERBS

Oakwood Garden club was entertained at the home of Mrs. Wiley Cooper, New Bedford, on Thursday evening with Miss Mabel Pearl Atkinson, as co-hostess.

In a very able and thorough manner, Mrs. Roland Peden presented the main program subject of the evening, "Herbs". Miss Margaret Lowery gave a five-minute talk on the "Chestnut Tree," told of its uses and the blight that caused such devastation among these trees.

Two new members were welcomed into the club, Mrs. Milton Patterson and Mrs. L. F. Hemenway.

Announcement was made that the club will sponsor the December show of the Lawrence County Garden Council in the garden center of the public library to be held during the entire week of December 10. The show will be of a competitive nature with all clubs contributing entries of Christmas arrangements.

Refreshments were served at the close of business.

December Christmas party of the club with a gift exchange will be held at the home of Mrs. L. G. Rudesill, corner West Grant street and Conkle avenue, Mrs. Roland Peden will be co-hostess.

ROUND UP CLUB PLANNING PARTY

On Thursday evening the Round-Up club gathered in the South Mill street club rooms, with Mrs. Anthony J. Capezio in charge, and plans for their annual Christmas party were made. It will be held on December 20 in the club rooms.

The birthday and wedding anniversaries of Mrs. Joseph Bordonaro Jr. were honored and she received a secret pal gift. The wedding of Mrs. Carl Richards, and she received a gift from her secret pal.

Club taken were captured by Mrs. James Cople and Mrs. Anthony Scoppio. Cards were played later. A duet was sung by Mrs. Nick Tusciano and Mrs. Thomas Macarella, and a solo by Mrs. Robert Pratt.

A delicious dinner was served by Mrs. Anthony Bullano, Mrs. James Cople, Mrs. Angela Sando, Mrs. Carl Richards and Mrs. Charles Petrucci.

The next hostesses will be Mrs. Joseph Bordonaro Jr., Mrs. Frank Santa, Mrs. Anthony Scoppio and Mrs. Augustine Roselli.

Newark Wedding In Florida

Miss Ruth Newark, daughter of Mr. and Mrs. Carl Newark of East Pierce, Fla., and formerly of New Castle, was married to Leslie S. Newark, son of Mr. and Mrs. Ralph Schooley of West Branch, Iowa, in the First Methodist church of Fort Pierce Friday evening, November 2. Rev. R. A. Alley officiated at the service.

Musical was provided by Mrs. N. E. Teisterman at the organ and by Mrs. H. J. Williamson, soprano. Given in marriage to her father, the bride wore a dress of antique silk jersey with black accessories and a corsage of yellow roses.

The couple were attended by Mr. and Mrs. Earl Turner, brother-in-law and sister of the bride, while A. W. Durks and W. E. Harman ushered.

Mr. and Mrs. Schooley left shortly after the wedding for West Branch where they will visit the groom's parents. Mrs. Schooley lived in New Castle until 1940, when her family moved to Fort Pierce where she finished high school in 1941.

Mr. Schooley was recently discharged from the navy after four years service as a chief pharmacist's mate. He was overseas for 20 months, serving first in North Africa and later at Marseilles, France.

The couple will reside with the bride's parents in Fort Pierce after returning from their wedding trip.

Mrs. Schooley is a niece of Mr. William Lemmy, 1110 East Washington street, New Castle.

W. C. B. Class Meets

W. C. B. class of the Wesleyan Methodist church was entertained Wednesday evening by Mrs. W. W. Walls and her sister, Mrs. Nan Fleming, at their home on Round street.

Mrs. Thomas Alexander was in charge of Thanksgiving devotionals.

Several members participated in reading an article, "Turn Your Sun Lamp" and a poem, "Day by Day".

Mrs. Beulah Motimer of Sandy Lake, a former teacher of the class was an out-of-town guest.

December 12 meeting will be a combined Christmas party and election meeting.

Section A, Y. L. B. Class

Section A of the Y. L. B. class of the Third U. P. church was entertained Thursday evening in the home of Mrs. Bert Book of East Washington street.

During the business session, conducted by the leader, Mrs. J. E. Gorman, plans were made to have a white elephant exchange Friday, November 23, at the home of Mrs. Gorman, of East Washington street.

Sewing was the main diversion of the evening. At a suitable hour a dainty lunch was served by Mrs. Book, aided by her daughter, Helen.

NEWLYWEDS ARE 'AT HOME' HERE

Mr. and Mrs. Kenneth Marshall Byers are at home to friends at 413 East Meyer avenue, this city, following their return from a wedding trip to Hamilton and other points in Ohio.

Their marriage was solemnized at a candlelight ceremony in Croton Methodist church at 7:30 o'clock in the evening on November 3. Rev. Owen W. Shields officiated at the single ring service.

The bride is the former Miss Vivian Elizabeth Vogan, daughter of David Vogan, of 409 Haus avenue, and the groom is the son of Jonah Byers of Hillsville.

Miss Dorothy Joyce was maid of honor and Cecil Byers served his brother as best man.

An informal reception for 100 guests at the home of the bride's father followed the ceremony.

Mrs. Byers was formerly affiliated with Jean Frocks, Inc., this city. Mr. Byers is associated with Republic Rubber company in Youngstown, O.

O. U. GROUP HONORS MEMBER'S BIRTHDAY

Associates of the O. U. Missionary society of Central Presbyterian church assembled for their November session Thursday evening in the church. This meeting served a dual purpose, as the birthday of one of the members, Mrs. Charles Stoner, was also observed.

Mrs. Stoner, who conducted devotionals, also reviewed the foregoing topic, "Iran". "A Challenge to Missions," the national subject, was contributed by Miss Ethel Douglas.

Each member told for what she is thankful in response to roll call. During the evening a box was packed for the mission school at Byrdstown, Tenn.

Plans were made to have a Thursday dinner at the church December 13. At a suitable hour, dainty birthday refreshments were served by Mrs. C. P. Tucker and Miss Lela Patterson.

SHOWER HONORS RECENT BRIDE

Mrs. Don M. Rae entertained at the home of Mrs. James Rae, Eastwood avenue, on a recent evening with a shower for Mrs. James Patterson, nee Isabelle Desai.

Contents were the pastime and prizes were awarded the winners. The guest of honor was presented with a number of gifts of crystal-ware.

Master Tommy Thompson made the presentation and also gave her a corsage, a remembrance from the hostess.

Buffet refreshments were served from a beautifully appointed table centered with yellow and white flowers. Mrs. James Rae aided her sister-in-law.

Garden Clubs Of County Active In Beautifying Sites

Member Clubs Of Garden Council
Plant Shrubbery, Evergreens
Many Places

That Garden clubs of Lawrence county are actively engaged at the present time in beautifying a number of school and park sites throughout the county was revealed when representatives of member garden clubs of the Lawrence County Garden Council answered roll call at a council meeting Wednesday afternoon in the garden center of the public library.

Trees and roses have been planted in Jackson park by the East Side Garden club.

Around Harbor grade school, Harbor Garden club has planted evergreens. Shrubbery planting around Harlansburg High school is the work of the Harlansburg Garden club. Lawrence County Garden club is the sponsor of the community rose garden in the park opposite the entrance to Jameson Memorial hospital. Walmo Garden club has completed a planting of shrubbery around the Walmo memorial and is in the process of planting shrubbery around the school building.

Ellwood Garden Club. In Ellwood City, the Ellwood Garden club has planted evergreens in Irving park and plans to undertake landscaping around the new maternity hospital. The Ellwood club joined the County Garden council at Wednesday's meeting, which brings the number of member clubs to ten.

A report on preliminary plans for the special white elephant project scheduled for November 26-27 was given by Mrs. Lyle Hughes, chairman.

Competitive Show Planned. Announcement was made of the competitive Christmas flower show to be given in the garden center of the library for the entire week of December 10-15. Prizes will be awarded for entries in the show which will be sponsored by the Oakwood Garden club.

Christmas Program. Mrs. Robert Lamoree, president, announced that on December 3 at 2 o'clock in Trinity Episcopal church, Mrs. Frank Heller, of Youngstown, will speak on "Christmas Arrangements."

Mrs. Fred Sontum is program chairman. Mrs. L. F. Royston, Mrs. Alan W. Urmon, Mrs. J. Russell Urmon, Mrs. Thomas Clark, and Mrs. E. I. Davenport will be the committee for the December meeting.

Program chairman for the five months after the first of the year were named as follows: January—Mrs. Humphrey Richards; February—Mrs. Grant Shaffer; March—Mrs. Frank Albert; April—Mrs. J. H. Vogan; May—Mrs. Kenneth Gann.

RAIN PREDICTER ELECTED. WAYNEBURG, Pa., Nov. 9.—(INS)—Western Pennsylvania's pathmaker John Daly, an attorney who predicts rain each July 29 and usually guesses right—was unofficially re-elected a squire.

Daly, a Republican, won easily despite the fact Wayneburg is a usually Democratic city.

THE PARENT PROBLEM

(Continued From Page Four)

among the parents. And they worked," he said.

Some of the rules were:

1. Driver is in full charge. Pupils must obey driver promptly and cheerfully. Pupils must obey orders of monitor or patrol or chaperone on bus.

2. Driver will assign a seat for which pupil will be held responsible.

3. Pupil must be on time.

4. Unnecessary conversation with the driver is prohibited.

5. Outside of ordinary conversation, classroom conduct is to be observed and driver must separate pupils or groups of pupils who do not live up to this rule.

6. Use of tobacco on this bus is prohibited.

7. Pupils must not throw waste paper or other rubbish on the floor of this bus or out of bus windows.

8. Pupils must not extend arms or heads out of windows.

9. Pupils must not try to get on or off bus or move about within the bus while it is in motion.

10. When leaving bus, pupils must observe directions of driver.

Penalty: For violation of any of these rules a pupil will be reported by the driver to the trustees concerned who can debar the pupil temporarily or permanently from riding on the bus.

Curbing Profanity

A number of parents have written me that profanity and obscene language, even obscene conduct, sometimes occurs on school buses. While these may not always be detected easily by the driver, he should deal with them as very serious when he does detect them. Appeal to the honor of the older children might prove effective.

Should not the school also have some way of inducing children at school to want to conduct themselves properly on buses and street cars which are public conveniences? Certainly the school should be expected to see that students entering buses near or on the school premises exercise more civility than usually is apparent.

Garth Edmundson Recital At Church For Two Clubs

On Thursday evening, members of the Federation Junior club, the Junior Woman's club, and their guests met in the First Presbyterian church for one of the outstanding events of the fall season, an organ recital by Garth Edmundson.

Mr. Edmundson, whose compositions are widely played throughout this country and abroad, presented a recital of his own arrangements and compositions. The program was in three parts: the first, three movements from Bach: Prelude, Air, Fugue, freely arranged for the modern organ by Mr. Edmundson. The second was three developments on original themes, Epiphany, Orison, Ave Stella Maris. Three contrapuntal preludes on 16th century chorales, Christ Whose Glory Fills the Skies, Now the Woods and Fields Are Sleeping, and From Heaven on High brought the recital to a close.

Preceding the program, Mrs. F. S. Sotterby, chairman of the evening, extended a welcome to the guests and introduced Mrs. Marshall G. Matheny.

Mrs. Matheny introduced Garth Edmundson, known as an artist, musician and composer, spoke about his work and the wide national and international recognition his compositions have received.

Following the recital, tea was served in the church parlors to 125 from a table centered with bronze and yellow chrysanthemums and

Surrender Is Demanded In Java Outbreak

British Commander Gives Ultimatum To Extremists In Java Disorders

BATAVIA, Java, Nov. 8.—(INS)—Lieutenant General Sir Philip Christison, Allied commander in Java, warned Indonesian Nationalists today that "strong" British forces would reinforce his troops should the extremists fail to comply with an unconditional surrender ultimatum at Sorabaya.

Shortly after the British commander at Sorabaya threatened a full-scale attack on the Nationalist extremists, Christison proclaimed that "strong" British forces arrived in Java would see out and punish those responsible for the foul murder of Brig. A. W. S. Mallaby.

Mallaby was slain during negotiations for enforcement of a cease-fire order after four days of savage clashes between British-Indian troops and Nationalist forces at the base. His body disappeared and was returned to the authorities only yesterday.

Meanwhile, Sorabaya remained quiet but tense as further details of the ultimatum by Maj. Gen. E. C. Manserv were revealed.

Manserv, British East Java commander, demanded that Sorabaya must be prepared to sign a document assuring unconditional surrender of all under their leadership.

In addition all arms must be turned over by Indonesians to the British authorities, and leaders of the youth movement arrested. These are to be turned over to the police and radio station head by 6 p. m. Java time, and all hostages now being held must be surrendered "in good condition."

Leaflets detailing the British demands were to be dropped on Sorabaya.

Allied Intervention In Italian Affairs Is Greatly Lessened

ROME, Nov. 8.—(INS)—Prime Minister Francesco Parri said today that gradual lessening of allied intervention in Italian affairs was of more importance than actual terms of the Italian armistice, "which is a historical document more than a political one."

"More interesting would be an examination of the reasons for the gradual lessening of allied control," he said. "But for such an examination, publication of documents and definition of factions not yet available to the public would be necessary."

Parri added that Italians were "particularly pleased" with such broadened participation of the armistice in resolution of intervention in internal financial matters, foreign transactions, worldwide communications and emigration.

Kiwanians At New Wilmington Name Edmiston

NEW WILMINGTON, Nov. 8.—Local Kiwanians have elected E. R. Edmiston, president, for the 1946 year. Other officers are W. W. Hartwell, vice-president; Russell Wilson, treasurer; and Clyde Lamb, Carl Voth, Charles Phillips, Alan B. Davis, Arthur Minter, and Ralph Shawkey, directors.

The new officers will assume their duties at the first meeting in January.

Harry Barkby, president of the New Castle Kiwanis club and a member of the American Society of Ceramic Engineers, entertained the local club with an illustrated talk on the manufacture of fine dinnerware at their last meeting.

Bicycle Tests At Lincoln-Garfield

Students Receive Instruction In Proper Bicycle Operation And Maintenance

Students at Lincoln-Garfield Grade school, South side, are undergoing a series of examinations these days that are not just exactly confined to pencil and paper but to the student's ability to operate safely and safely their bicycle.

Throughout the country, state and city governments are inaugurating campaigns and passing certain laws concerning the ownership, operation, and maintenance of bicycles and the campaign has taken hold of the health department of the South Side school.

Classes Set Up Through the health supervisor of the school, Martin Leonhardt, classes in the safe operation of bicycles have been set up and every boy or girl owning a bike is receiving instruction in its proper operation in regard to the rules of safety and the protection of lives.

The tests are being conducted in the school gymnasium and such problems as to whether the bike fits the rider, whether it is mechanically safe, can the rider balance himself properly, can he pass the obstacle test, does he know the traffic laws and many other problems such as these are brought up.

Thirty-five students in the school, including one girl, Mary Pecardo, have passed the series of examinations.

Reject Delay In Hearings On Pearl Harbor

WASHINGTON, Nov. 9.—(INS)—The Pearl Harbor investigating committee, assured by President Truman that government employees may volunteer information on the Jap attack, voted down a Republican move Thursday to postpone public hearings for one week.

At the same time the ten-member joint committee by a tie vote rejected another request by Sen. Brewster (R-Me.) that he be permitted to inspect certain navy files relating to the Japanese "wind" code messages.

Senate Majority Leader Barkley, committee chairman, announced following a three-hour closed door session that the committee by a six-to-four vote, decided to stand pat on opening public hearings November 13, next Thursday.

Reject Delay

A motion by Sen. Ferguson (R-Mich.) to postpone hearings until November 23 was rejected on a straight party vote.

The chairman said Ferguson's request for postponement of the hearings was based on a plea that he had not been able to "read all the records". The majority felt that since counsel now has enough evidence to proceed with daily hearings for three or four weeks, the inquiry should open as scheduled, Barkley added.

Admiral James O. Richardson, naval commander at Pearl Harbor until shortly before the Jap attack on December 7, 1941, will be an "early witness", Barkley told reporters. Admiral Husband E. Kimmel, Richardson's successor, and General Walter C. Short, the army Pearl Harbor commander at the time of the attack, are on the witness list but no date has been set for their appearance.

Neither has it been decided when General George C. Marshall and Admiral Ernest J. King will be called to testify, Barkley said.

He stated, however, that the committee "probably" will call former Secretary of War Henry L. Stimson but that it was uncertain whether former Secretary of State Cordell Hull would be unable to testify personally.

Japanese Sailors Resent Girls Dating American Soldiers

One Japanese Girl Slugged By Jap Sailor In Park With American GI

TOKYO, Nov. 9.—(INS)—The first report of Japanese resentment against fraternization was under investigation in Tokyo today by United States military and Japanese civilian police.

The incident involved Hisamatsu Masharu, 19-year-old Japanese sailor who struck a Japanese girl in Hibiya park for dating an American soldier.

Masharu was brought to the provost Marshal by a group of American GIs who told M. P.'s he was one of nine Japanese sailors found roaming the park slapping girls in the company of Americans.

Masharu was turned over to the Metropolitan police for booking. He was released later to return to his ship, which has been returning Japanese service men from outlying islands to the Tokyo area. He will appear later for questioning.

The girl slugged by Masharu was treated at an army dispensary for a cut lip.

France Will Send Representative To Discuss Finances

PARIS, Nov. 9.—(INS)—Official circles revealed today that the French government will send Pierre Mendes-France to Washington to discuss financial problems.

The French financial expert possibly will initiate discussions on the devaluation of the franc in his talks.

Although there has been no announcement about his mission, and there is an absolute ban on official discussion of devaluation, Mendes-France himself admitted he was leaving Paris late this month with official credentials.

His selection puzzles French observers in view of his long-standing rivalry with Rene Pleven who elbowed Mendes-France out of the ministry of national economy.

It was recalled, however, that Mendes-France made an excellent impression on United States treasury officials during his mission last year.

Babson Sees Advertising Vital Factor In Nation

By ROGER W. BABSON
(Copyright, 1945, Publishers' Financial
Review, Inc.)

BABSON

BABSON PARK, Mass. Nov. 9.—People today are taking conversation. In a short time, we will all be discussing distribution. Reconversion of a plant from war work to consumer goods is a comparatively simple matter; but the sale and distribution of these consumer goods in the years may be very difficult after the present backlog has been satisfied. Hence, we all should now begin to think of how we can help the sale and distribution of goods.

During the past few years we have been drafting men for military purposes and paying large wages to others to make munitions, guns and airplanes. Unless we have sufficient volunteers as salesmen, it may not be long before the country will be obliged to "draft" young men and young women for distribution purposes. After reconversion, it will be a simple matter for manufacturers to make goods of which there may soon be an excess. Selling goods, however, is another matter. The sale of goods is a two-way street. It is dependent upon advertisement which, conversely, is dependent upon the sale of goods. One is the hatcher and the other is the hand; one is the lock and the other is the key. Hence, I am this week appealing to every young man who would like to be a salesman that immediately after his discharge from the service he train for the selling of goods. This will be as patriotic work as his work in the army, navy or air force.

Importance of Advertising
A salesman needs tools, however, as much as a carpenter, a surgeon or a surgeon. Someone must go ahead of him and blaze the trail and prepare the ground on which he should work. A salesman cannot get more by expected to succeed without ground being prepared for him than can a farmer be expected to raise crops on land that has not been plowed, harrowed and fertilized. This means that all those who employ salesmen should be prepared.

to spend money—yes more than ever before—on constructive advertising.

But advertising itself changed much during the war so that businessmen now need expert advice in preparing advertising. This was brought out recently at a New York Publishers Association meeting by Don Bernard, the able advertising director of the Washington Post. He appealed both to advertisers and newspapers, warning of a drop in income ahead unless they wake up and actively solicit business.

Different Forms of Advertising
When I was a boy the newspapers were about the only medium for advertising although there were a few magazines such as the "Youth's Companion". The great magazines of today did not then exist. In 1907, I went to work for the "Saturday Evening Post" and I remember George Horace Lorimer, the editor, told me that the circulation was less than 30,000 when he took it over. Today, however, unless a magazine has a circulation of two or three million it has great difficulty surviving.

On the other hand, newspapers have an unique advantage over other forms of advertising. An advertisement can be delivered to a newspaper today which will be read by the community tomorrow; whose magazine must wait to press one or two months before the advertisement is published. Newspapers are also confronted with radio advertising and probably will soon face television advertising.

Radio Advertising
Radio advertising is profitable for only big concerns. Where a newspaper can constantly increase its size, a broadcasting station is limited to one wave length and only 24 hours a day in which to use it. Many stations are already overloaded with advertising. Unless they correct the situation, this country will strive to cut out radio advertising altogether as has taken place in Great Britain. Furthermore, in the case of radio, the advertiser is using the spoken, rather than the written, word—and people forget quickly.

Your Community's Welfare
But more important than anything I have mentioned above is the service which your local newspaper renders to the upbuilding—morally, politically and socially—of your community. It can do many things the good of the preachers, school teachers and city fathers. It gives you more for your money than anything else you can buy. Back up in every possible way by encouraging its editors and advertisers.

**Motorists Warned
Traffic Hazards
Will Be Greater**

HARRISBURG, Nov. 9.—(INS)—Motorists were warned today by the State Highway Department that they may face the most hazardous traffic conditions in the state's history this winter due to the prevalence of over-age cars.

T. Elmer Transeau, director of highway safety, predicted traffic accidents may reach a new peak this winter and urged drivers to keep their machines in good order. He warned against reckless and fast driving.

"This is more important this year than ever before, because traffic engineers and safety experts say that this will be the worst auto accident winter in history," Transeau stated. "Your life may depend on how well your vehicle's safety equipment works—and how well the other fellow's works."

**U. S. Steel Will
Cooperate In Vote
On Strike Issue**

PITTSBURGH, Nov. 9.—(INS)—John A. Stephens, vice president of the United States Steel Corporation, today informed the NLRB that the company would cooperate in strike votes to be held in 13 of its subsidiaries November 28.

Stephens said the company would do this despite its conviction that the strike votes were in violation of existing contracts between the CIO-United Steelworkers and the company.

Allegheny Ludlum Steel Corporation said yesterday it felt similarly about strike votes ordered for its plants but would cooperate.

HIGHWAY BRUSH FIRE CARE URGED

HARRISBURG, Nov. 9.—All Pennsylvania Department of Highways' women and caretakers have been instructed to use extreme caution when their work requires them to build a fire to burn leaves and debris. Secretary John U. Shroyer announced today.

The day was dry and windy and as a result a fire broke out which was soon out of control of the caretaker and his men. The following day it broke out again and when it was finally extinguished extensive damage had been done—200 acres of land had been burned over.

"I know that all department employees, and all Pennsylvanians are interested in maintaining the beauty which now exists along the highways throughout the state and the state forests," Shroyer said. "Therefore it is necessary for every one to exercise extra care where it is necessary to build fires outdoors or to burn leaves and debris. It is for this reason that it has been the practice of the highway department to cooperate with the Department of Forests and Waters in combating forest fires in areas where it has been difficult for them to recruit sufficient men in an emergency."

Dentist Shortage Will Continue

CHICAGO—A dentist shortage that may continue until 1960 is predicted by Harlan A. Horner, secretary of the council of dental education of the American Dental Association.

The number of people wanting dental care for the three decades from 1930 to 1960 will show a progressive increase," he said, but "the provisions for dental care will be less in 1960 than in 1930 because it is doubtful if dental schools will be at full capacity before 1950."

Dental schools should draw students from all sections of the country in order to maintain an equitable distribution of dentists between rural and city areas, Horner said.

During the last smallpox epidemic in the Sudan, 1,800,000 cases of vaccine were administered in 13 months.

Gangsterism In London Revealed

Report Polish Deserters Causing
Reign Of Terror In London
And Vicinity

LONDON, Nov. 9.—(INS)—Gangsterism, along the Hollywood model of Chicago and New York during the 1930's, flourished today in London.

The London Daily Mail came to this conclusion following a series of special investigations carried out with approval of the authorities.

On the basis of these investigations, the Mail said that the "gangsters" are Poles—hundreds of deserters—who brought terror to the Victoria area and are spreading to other districts. Murders, stabbing and beating of both men and women are reported with increasing frequency, as are gang fights and every type of black-market activity.

Police were quoted as saying that Poles so terrorized the Victoria district that former habitual crooks were driven out and forced to seek new haunts to avoid being beaten. Most numerous victims were allied servicemen returning home on leave.

Convict 1059 Of Draft Violations In Pennsylvania

HARRISBURG, Nov. 9.—(INS)—The Federal Bureau of Investigation reported today at Harrisburg that only 1059 Pennsylvania registrants were convicted of violating selective service regulations during

the five years following inauguration of the draft in 1940.

A report, compiled by FBI Director J. Edgar Hoover, disclosed that 20,926 cases of negligence had been investigated in the state by special agents between October 16, 1940 and September 30, 1945. Investigations of the other 19,867 cases were closed after registrants complied with draft rules, he added.

Vigilance Continues

The FBI has not relaxed its vigilance in cases involving registrants between 18 and 26 years of age

even though hostilities have ceased, Hoover emphasized.

Approximately 3,000,000 Pennsylvanians registered for military service during the period.

Hoover explained that a total of 34,191 years

325,736 draft cases throughout the nation had been marked "closed" by the bureau during the 1940-45 period and that full sentences imposed on violators totaled more than 14,191 years.

College On Site Of Famous Battle Will Honor Event

Immaculata College Will Unveil Plaque Marking Revolutionary "Battle Of Clouds"

IMMACULATA, Pa., Nov. 9.—(INS)—The Revolutionary War's "Battle of Clouds" was believed to have been waged on the present site of Immaculata college.

Chester county historians and faculty from the institution have agreed that a study of the elements exclusively points to the Immaculata college location, which stands on the highest point between Philadelphia and Harrisburg, as the likely place for the significant encounter.

Every season there has been a rainy spell about September 16 which authorities said was similar to an equinoctial storm. Each year the hills surrounding the college have been covered with fog.

In 1777 General George Washington was forced to retreat in an attempt to reach the top of a hill because the fog rendered his supplies useless, historians said.

Washington's plans were deemed successful, however, because he delayed Howe's move toward Philadelphia and he kept the British from looting the area in the upper section of the county.

The "Battle of Clouds" was in reality, a series of skirmishes, but they were so significant that Immaculata college will unveil a bronze plaque to commemorate the event on November 12, the same day the institution celebrates its 25th anniversary.

ASKS MORE SNOW PLOWS

PITTSBURGH, Nov. 9.—(INS)—Pittsburgh's mayor, Cornelius D. Scully, today asked 23 Pennsylvania congressmen for backing in his request for high priorities for government snow plows.

The city council recently appropriated \$200,000 for the purchase of the plows, with which the nation's air bases are "loaded," the mayor said.

Advice Given Farmers On Shelter Planting

HARRISBURG, Nov. 9.—In their information-data to farmers, the State Department of Forests and Waters describes two practices of planting "seedlings" and "transplants" for best results. "Windbreaks" and "Shelterbelts". A windbreak is defined as a plantation of one or more rows planted near or adjacent to farm buildings for the primary purpose of protecting the farm home and general farm buildings from winter winds and drifting snows.

A shelterbelt, likewise, consists of one or more rows of trees, but the primary purpose is to prevent wind erosion in open fields of light soil, and to trap snow in these fields, thereby retaining for the soil a greater percentage of moisture that falls in the form of snow.

"Transplant" sizes of trees, obtainable from the Department's Bureau of Management, are generally recommended for these types of planting.

Housing Board Asks Definite Policy On Prices

HARRISBURG, Nov. 9.—(INS)—The state housing board called today on federal housing officials to define a price policy for home building in order to eliminate "the principal bottleneck" hampering new construction.

"Until it is decided in Washington whether or not price ceilings are to be established on new construction, there is little hope of progress toward relieving the acute housing shortage which exists today," said R. H. Lavin, Jr., chairman.

All home building will be held in the "barely" stage as long as price control authorities disagree on the necessity of ceilings, he declared during a meeting at Harrisburg yesterday. He urged local business to press the Pennsylvania congressional delegation for action.

The Office of Price Administration was asked to speed action on price adjustment applications filed by manufacturers of building materials.

Lavin said the cooperation of all branches of the construction industry would be sought to reduce new home prices, currently 30 to 40 per cent above pre-war figures.

Local governments experiencing housing shortages were urged to complete their building programs as soon as possible.

Two Are Killed In Plane Crash

KANSAS CITY, Nov. 9.—(INS)—Transcontinental & Western Air officials announced Thursday that TWA Vice-President Jack Nichols, Pilot Milo Campbell and Austin Naylor, an aeronautical expert, were killed in the crash of an army plane at Cairo, Egypt.

A TWA spokesman said no details of the crash, which occurred Wednesday, had been received but it was understood army authorities at Cairo would issue a report after the crash had been notified.

Nichols, Campbell and Naylor were conducting investigations preparatory to manufacturing TWA's recently-ordered international jet routes.

URGES PEACEABLE SOLUTION
WHEELING, W. Va., Nov. 9.—(INS)—Thomas Cairns, president of the West Virginia State Federation of Labor, today urged a peaceable solution in the recruitment problems of management and labor.

Addressing some 200 delegates at the 23rd annual convention of the group at Wheeling, he said that unity in labor movements "should be a must" with every union and they should not depend on congressional action to assist labor.

The convention will adjourn tomorrow.

HARLANSBURG

Rev. V. A. Schreyer of Princeton and Herman Presbyterian churches preached a sermon for the Liberty League at the Presbyterian church in Harlansburg Sabbath evening, November 4.

Chaplain Will Speak At 'Thanks' Service In First U. P. Church

Former Army Chaplain W. J. Harper McKnight, who has recently returned to his home in New Wilmington after serving in the ETO, will be the speaker at the Thank Offering service in the First United Presbyterian church on Glenmore boulevard Sunday morning.

In service since July, 1942, Captain McKnight earned five battle stars for service in the Normandy, Northern France, Ardennes, Rhineland and Central Germany campaigns. He has also been awarded the Bronze Star Medal for heroism in combat.

Chaplain McKnight is now in New Wilmington where his wife is the house mother at College Hall and one of his two daughters is a sophomore at Westminster college.

The Thank Offering service is an annual event sponsored by the women's missionary groups in the church.

Hope Chest Starts Soldier Off In Bliss

KANSAS CITY, Mo., Nov. 9.—Several years ago a young boy eagerly watched his sister fill her hope chest. Not to be outdone by a girl, he asked for a similar chest and his parents promised him one.

Recently Lieutenant Robert T. Amstutz telegraphed his family: "Getting married. How about that hope chest?"

Mother and father came through with enough items to fill several chests. Included among the gifts were matching pajamas for bride and groom made from the parachute that landed the lieutenant on French soil when his P-47 was shot down. A French parasol, supplied by French partisans after they discovered Amstutz tangled in blackberry bushes, also was among the items. The parasol had been used to keep off rain while Nazi soldiers dug looking for the officer and he was rescued by the partisans.

Other presents were household items and kitchen things including the officer's old silver napkins, a cookbook and a kitchen apron with three cigars in the pocket.

Says Church Only Hope Of Germany

PITTSBURGH, Nov. 9.—(INS)—Dr. Hugh Thompson Kerr, Presbyterian pastor, declared today the church is Germany's only hope.

Dr. Kerr, former pastor of Shady-side Presbyterian church in Pittsburgh, has just returned from a three-month inspection of church conditions in Europe.

He said the Protestants in Germany have set up a unified national church composed of all Protestant denominations.

Nylon Production Reaches New Peak

WILMINGTON, Del., Nov. 9.—(INS)—Nylon production in the United States has reached a new peak of one and one-half million pounds per month, it was disclosed today by the E. I. duPont de Nemours & Company.

The firm's plants at Seaford, Del., and Martinsburg, Va., are turning out nylon at three times the pre-war rate, it was reported by a company spokesman.

The duPont Company only last September 1 announced a price reduction in 40 denier yarn to \$2.35 a pound. Sixty-denier of one pound is sufficient to make 12 pairs of stockings, the spokesman said.

It was further explained, however, that the company is now turning out DuPont nylon in quantities that must pass it for further use in the war.

Report Eisenhower Had Conference With Red Marsh

NEW YORK, Nov. 9.—(INS)—CBS broadcast from Berlin reported that Gen. Dwight D. Eisenhower conferred with Soviet Marshal Georgy Zhukov on occasion of the 25th anniversary of the Russian revolution.

Eisenhower and Zhukov were in the city when the report reached the United States. The report was the first of the Soviet-Polish conference.

Plans For State Bonus Pondered

Servicemen's Leaders Report It Is Too Early To Forecast 1947 Moves

OTHER NEWS OF STATE CAPITAL

HARRISBURG, Nov. 9.—(INS)—Leaders of Pennsylvania's servicemen's organizations have reported that it was "too early" to predict whether they would press for a state bonus during the general assembly in 1947. . . . It was expected, however, that bonus proposals would be tossed into legislative hoppers in 1947. . . . It was also pointed out that there would be some opposition so such plans because discharged veterans of World War II receive higher mustering out pay and additional benefits. . . . The Department of Military Affairs has reported that more than \$328,000 still was available for distribution to approximately 40,000 Spanish-American and World War I veterans under a program authorized by the state in 1933.

The 1945 general assembly extended the deadline for applications until July 1, 1945. . . . Those eligible for the grants must have served in America's armed forces during the following times: Spanish-American War between April 21, 1898, and August 13, 1898; China relief expedition, or in the Philippines and Guam from April 21, 1898, to July 4, 1902; and World War I between April 6, 1917, and November 11, 1918. . . . Each bonus is limited to \$200 and was computed on the basis of \$10 for each month of service.

The Department of Labor and Industry has reported that 79 fatal and 9,160 non-fatal industrial accidents occurred in Pennsylvania during September. . . . In August, the department said, 107 fatal and 9,903 non-fatal mishaps occurred in Pennsylvania factories. . . . During the first nine months of the year a total of 91,275 accidents happened in Pennsylvania industries, the agency said.

Officials of the state American Legion have planned a two-month tour of Pennsylvania to visit various parts of the organization's rehabilitation and service programs. . . . The tour will be made in November and December. . . . These will not be speed-making meetings but will be more or less a forum on a question and answer basis, receiving complaints with respect to service and rehabilitation work as well as the general legion program, an official said.

The necessity for communities to plan "emergency" evacuation routes for the improvement of local opportunities has been pointed out by the state planning board. . . . Pennsylvanians have fought hard and won a great victory in the fields of war but the true meaning of that victory must finally be developed on the main street of every Pennsylvania town through what that town provides for its citizens and what new opportunities it develops for its children, the board said.

1895—Roentgen, in Germany, discovers mysterious powerful ray, names it "X"—the unknown. One year later W. D. Coolidge, student at M.I.T., begins experimenting with x-rays. First x-ray tubes were about 25,000 volts.

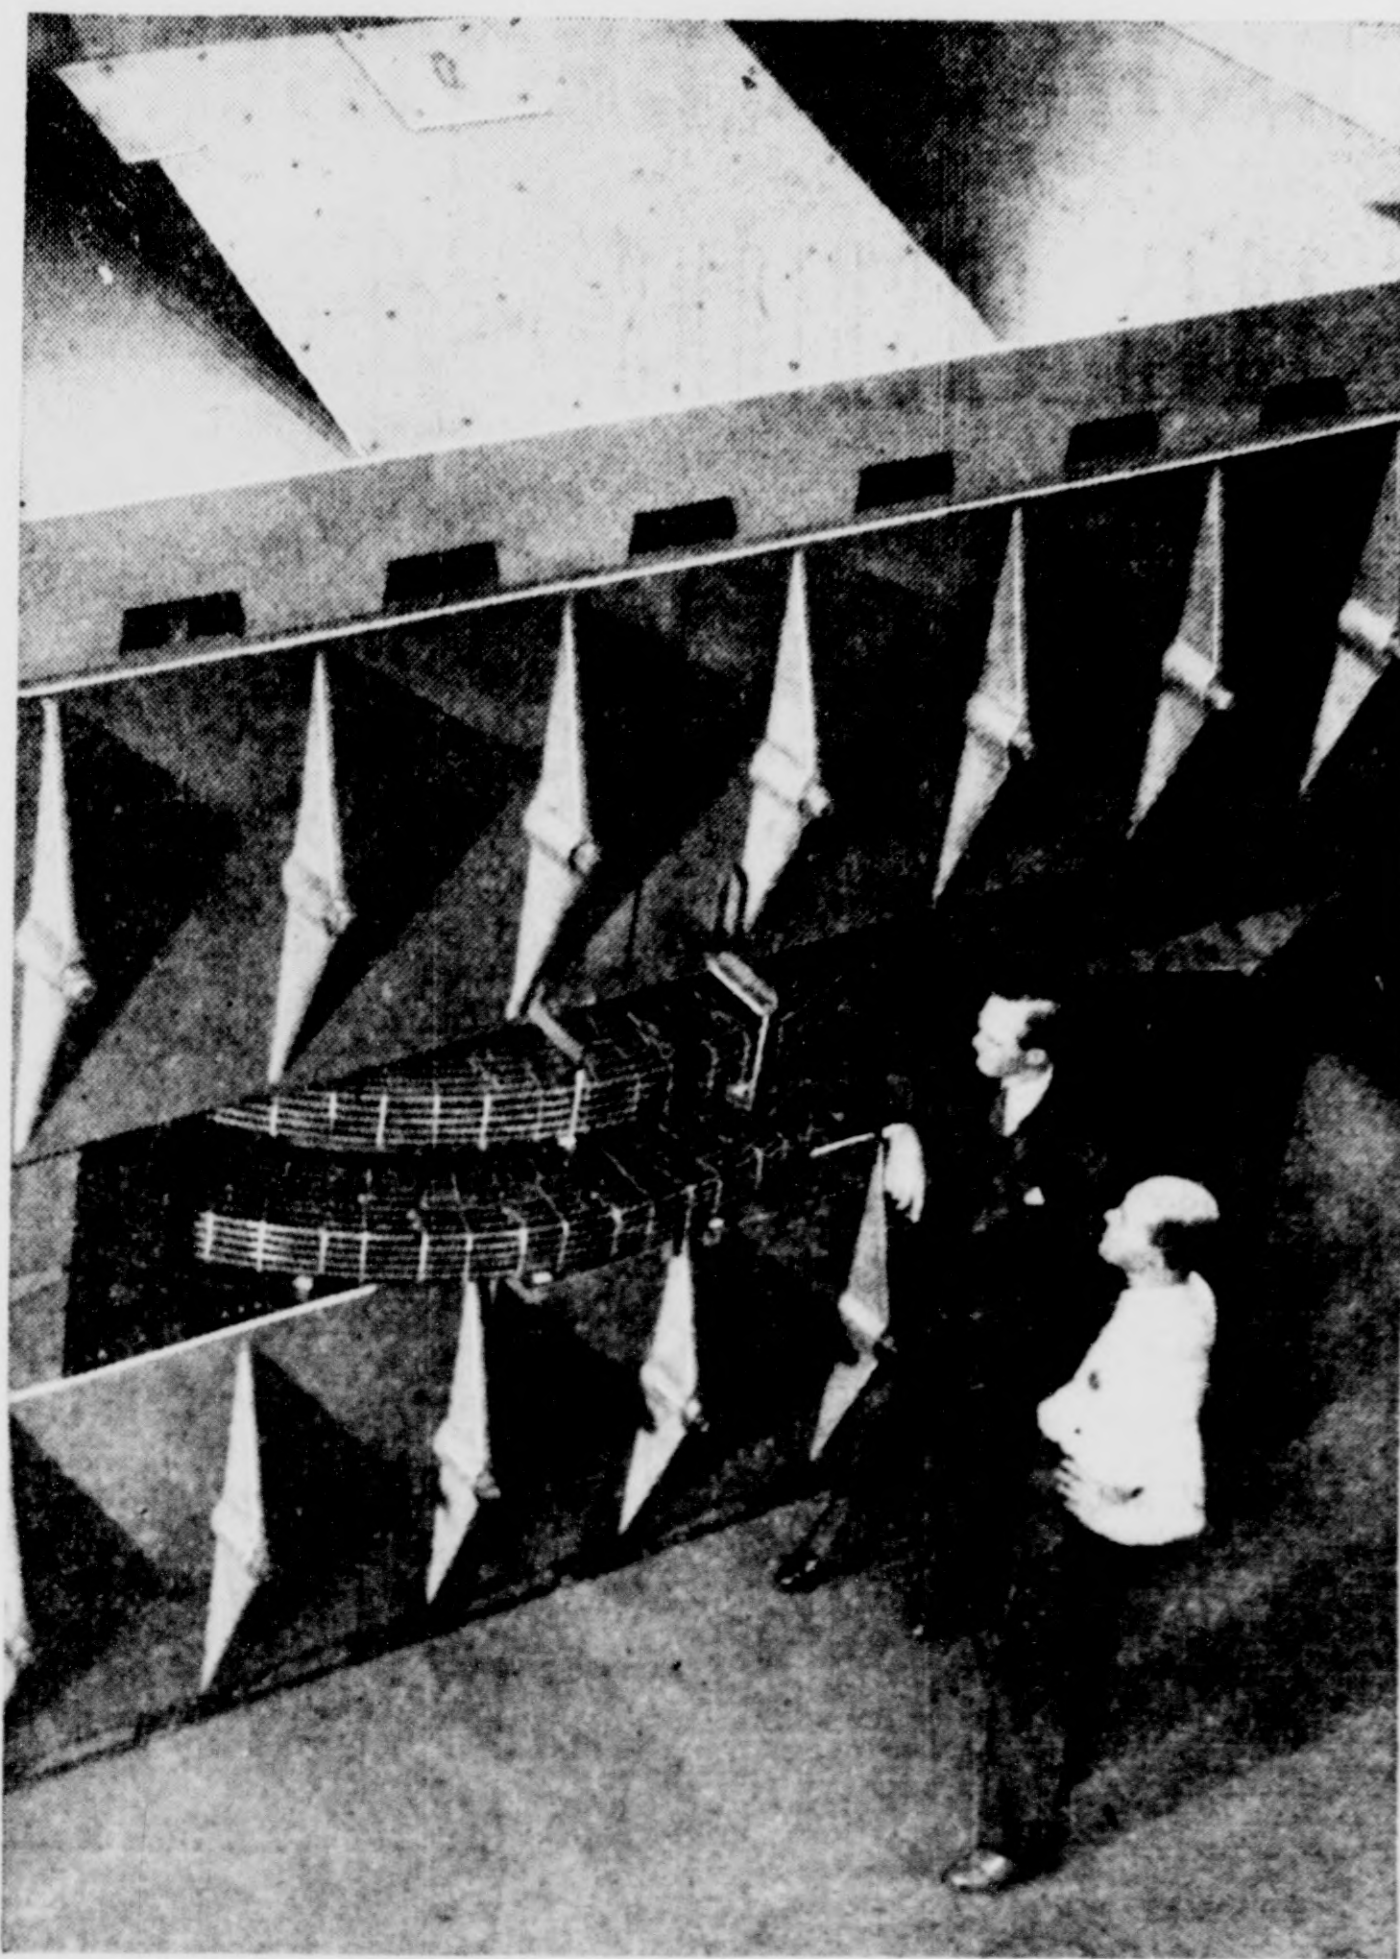

1913—Dr. W. D. Coolidge, at General Electric, invents revolutionary new x-ray tube. First reliable method of controlling x-rays. This tube was 100,000 volts.

1920—Coolidge designs a completely insulated tube and transformer for a thoroughly safe x-ray unit. The first whole-body x-ray unit came out of this.

NEW GIANT X-RAY

The Latest Development in 50 Years of X-Ray Research

1945—NEW G-E 100-MILLION-VOLT "BETATRON"!

This 130-ton giant whisks electrons, times parts of atoms, faster than man has ever been able to speed them before. So fast that they make the nearly 17-foot circular orbit of a doughnut-shaped vacuum tube 250,000 times in 1/240th of a second, and, striking a tungsten target, produce x-rays of 100-million-electron volts!

Dr. E. E. Charlton, left, and W. F. Westendorp, G-E scientists, designed this new machine, which generates x-rays over a thousand

times as intense as the early Coolidge tube—with a wave length of 0.000125 Angstrom units, up in the cosmic ray band! These rays will penetrate a thickness of metal considerably greater than even the 2,000,000-volt x-ray unit.

But more important still may be the uses of these super x-ray machines in medical and atomic research. G-E is making them available to medical science for experimental therapy.

General Electric Company, Schenectady, N. Y.

More Goods for More People at Less Cost

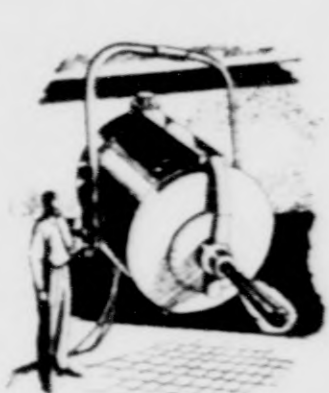

GENERAL ELECTRIC

1923—Coolidge develops a 200,000-volt deep therapy tube with water-cooled target. This higher voltage tube greatly reduced time required for x-ray treatments.

1933—General Electric develops a 300,000-volt x-ray tube installed in Mercy Hospital, Chicago, and Swedish Hospital, Seattle. These units have been in constant use ever since.

1940—First 1,000,000-volt unit, plus portability, making it a real breakthrough to medicine and industry. Fifty of these units built by G-E X-Ray Corporation used in U.S. war production—even flown to England. In 1943 General Electric scientists and engineers developed the first portable 2,000,000-volt x-ray.

Russians Believe Hitler Still Alive

Despite British Report Russian Forces in Berlin Think Hitler Still Lives

NEW YORK, Nov. 9.—(INS)—Russian occupation forces in Berlin still do not believe Hitler is dead. A CBS correspondent, reporting on the revolutionary party in the German capital last night, said the Russians cling to the belief that Hitler still is alive despite a British report last week which called the news closed.

It's noteworthy, the correspondent said, that the British report on the death of Hitler and Eva Braun, this bride of 24 hours before the two supposedly committed suicide, was not published in any German newspaper in the Russian zone.

This, it is understood, is due to a specific order by the Russian censor.

German communists also told the correspondent that they are convinced that both Hitler and Martin Bormann, Nazi party chief, are alive and at large.

Mail Service To Italy Broadened

Only Few Provinces Are Expected In Recent Order Opening All Types Of Service

OTHER DISTRICTS ARE ALSO OPENED

Parcel post and other mail, including air mail, may now be sent to all of Italy, except the provinces of Trieste, Pola, Gorizia, Fiume and Zara. Postmaster William P. Hanna has been informed by the postmaster general. In addition, mail service to the Philippines and to Czechoslovakia has also been broadened.

Parcel post to Italy may not exceed \$25 in value, and 11 pounds in weight. It may measure up to 12 inches in length and girth combined. The length, except in special cases, however, cannot exceed three and a half feet. Only essential articles may be sent, and all parcels must be marked "gift package." No merchandise may be sent by air. There is also no special delivery service.

Parcels, as described above, may be sent to the cities of Trieste, Pola and Gorizia and ordinary letters of 10 ounces or less may be sent to the five provinces mentioned above.

In Czechoslovakia, service has been broadened to include first class mail, which may weigh up to four pounds six ounces and can contain merchandise. Printed matter may be sent up to one pound. Registration fee rate is 20 cents, special delivery 30 cents, air mail two ounces at 30 cents per half ounce.

Restricted mail service is available to Brunei, Burma, French Indo-China, Hong Kong, Malaya, North Borneo, Sarawak, Straits Settlements and Thailand (Siam). Only letters which cannot weigh over one ounce, and post cards, can now be sent. The rate is five cents per letter and three cents per post card.

Parcels weighing up to 70 pounds may be sent to Manila, Baguio, Iloilo, Cebu, Zamboanga and Davao in the Philippines. Mail service is now available to all post offices in the Philippines, except Basco in the Basilan group.

Articles not exceeding one pound in weight may be sent by air mail to all points in the Philippines, except Basco, at a rate of 50 cents per one-half ounce or fraction thereof.

Librarians Return
From State Meeting
To Local Conference

Theme Of State Meeting Will Be
Reiterated At New Castle Ses-
sions Next Thursday

Returning from a three-day ses-
sion of the Pennsylvania Library
Association in Harrisburg, Miss Alice
Sterling, head librarian of the New
Castle library, and Mrs. Katherine
Charles, Ellwood City librarian, have
completed reports to present to the
four-county library conference
which will meet in New Castle on
Thursday, November 15.

The four-county meeting, which
includes librarians from Lawrence,
Mercer, Beaver and Butler counties,
as well as a few from outside coun-
ties, will have the P.L.A. conference
theme of "Rehabilitation and the
Library" as the subject of its morn-
ing session in the assembly room of
the public library, and a panel dis-
cussion of new books as its after-
noon session in The Castleton hotel.
Mrs. Sara Caldwell, Ambler
librarian, is president of the
four-county conference.

Veterans' Representative
Principal speaker for the morning
session will be Worrell Jones, local
representative of the Veterans' Ad-
ministration. Miss Evelyn Matthews
of the state library at Harrisburg
will also be present.

Immediately following the noon
luncheon in The Castleton the panel
of readers, not librarians, will discuss
new books. On the panel are Mrs.
Louis Dayton, Mrs. Hoffmaster, and
Mrs. Harold Glenn. Soloists by Mrs.
W. J. Caldwell, soprano, will be
heard during the afternoon.

At the Harrisburg conference, Miss
Sterling and Mrs. Charles heard
Norman Cousins, editor of "The
Saturday Review of Literature,"
speak on "Can We Survive the
Atomic Age?" Mr. Cousins, who has
written a book on the subject,
stated that if there is another war
it would be an "anonymous" one,
with no one knowing who caused the
destruction.

Governor Martin
Would Preserve
State Resources

HARRISBURG, Nov. 9.—(INS)—
Gov. Edward Martin today under-
lined legislation approved by the
general assembly designed to help
preserve Pennsylvania's natural re-
sources and stimulate employment.

In the tenth report of Pennsylv-
ania's progress during the past two
years, the chief executive pointed
out that "foremost" among the
conservation measures was the anti-
pollution bill designed to end the cen-
tury-old stream pollution problem.

He also cited legislation paving
the way for municipalities to con-
struct sewage disposal systems,
establish municipal authorities and
other self-liquidating public works.

Another measure appropriated \$5-
000,000 for the desilting of the
Schuylkill.

"By these provident legislative
measures, Pennsylvania is assured
of an adequate supply of pure
water, for both drinking and manu-
facturing purposes," Governor Mar-
tin declared.

Legislation authorizing common-
wealth control of bituminous strip
mining "will bring back to pro-
ductivity much land hitherto rendered
virtually valueless," he added.

He also pointed out that more
than \$30,000,000 was appropriated by
the legislature this year for a con-
servation program. One measure
appropriated \$16,500,000 for the de-
partment of forests and waters for
the purchase of land, reforestation,
recreation and stream channel im-
provements.

**PREDICTS BIG
FIVE MINISTERS
WILL MEET SOON**

NEW YORK, Nov. 9.—(INS)—
James C. Dunn, undersecretary of
state, who arrived from London to-
day on the Queen Mary, predicted
that the foreign ministers of the
Big Five powers will renew their
meetings within a month.

The first meeting of the foreign
ministers was like any other or-
ganization, Dunn said. "It takes
a while to get it going."

SEEK WAGE RAISE
ALTOONA, Pa., Nov. 9.—(INS)—
The CIO United Railroad Workers
of America today demanded the
right to negotiate nationally with
railroad employers for a \$2.50 daily
wage increase.

National Director A. B. Martin
issued a statement in which he said
the CIO-URWA has "served notice
on the National Railway Mediation
Board that this CIO railroad orga-
nization desires a place in all
national negotiations for wages and
working conditions for the 1,000,000
operating railroad workers."

BETTER PASTURE
MUST BE MADE

COLUMBUS, O., Nov. 9.—(INS)—
The soil is not rich enough to
support a large amount of stock,
durable pasture and soil is a dis-
tance, the Ohio Farm Bureau con-
tended in a recent statement.

Bureau specialists asserted that
building better pastures to make
better beef and dairy products is a
full-time job.

"Good pasture from better soil
has been proven will pay, along
the essential vitamins, minerals and
other food elements in grazing
stock," the statement said.

"Most from these animals will
furnish humans with their essen-
tials also, while poor soils will create
both animals and man of these food
components."

On the other hand, poor soil
fertilizer will mean along a pasture in
erode or lose its fertility. Over 96
per cent of the acreage farmed
lacking a billion acres, the cost of
soil conservation treatment to pre-
vent against erosion and maintain
fertility.

Dr. J. V. Flaherty Dies At Phoenix

Former Dentist In New Castle; Retired From Active Practice In 1930

Dr. John V. Flaherty, native of Chittenango, New York, and former resident of this city passed away at his Phoenix, Arizona home November 6, following a four month illness.

He was 76 years old and for many years practiced dentistry in New Castle. He received his primary and high school education in Chittenango, New York, schools then attended the University of Buffalo Dental school. Upon his graduation he opened an office in Chittenango where he practiced for 12 years. He then moved with his family to New Castle, Pennsylvania, where he followed his profession until his retirement in 1930.

Active in lodge and church affairs, he was a member of the Methodist church and past master of Sullivan Lodge F. and A. M., Chittenango, New York. He was also affiliated with the Scottish Rite, Royal Arch and Knight Templar organizations, serving as worthy patron of O. E. S. 105 of New Castle and acting patron of the other chapters.

His first wife, Edith Hoover Flaherty, who was well-known in this city passed away in 1932. Following his retirement in 1930, Dr. Flaherty made his home in Phoenix, Ariz., where he has taken active part in church and lodge affairs.

He is survived by a daughter, Mrs. C. I. Diehl and her three children, of Terre Haute, Ind.; a son, Albert H. of San Bernardino, Calif., and his wife, Sevilla.

A freight train now performs twice as much work per hour as it did 20 years ago.

Officials Discuss Police Ball

Mayor John F. Haven and Chief of Police Robert D. Hanna met yesterday to further plans for the City Police annual ball which will be held in The Cathedral, Thanksgiving night.

According to the mayor and chief they expect it to prove the best dance yet held by the local police. The ballroom will be artistically decorated, one of the finest bands in the country will provide the music and motion pictures of the affair will be made. The funds derived will be used to pay pensions to police after they retire from active service.

Fear For Large Stocks Of Rubber

SAIGON, Nov. 9.—(INS)—Fears were expressed today that Indochinese nationalists may destroy huge stocks of much-needed rubber as part of their "total economic warfare" against allied authorities. The nationalists declared they intend to burn all stocks of goods and raw materials as a measure of their "total economic war." Rubber stocks are estimated at well over 100,000 tons.

Tiny furnace leaks may be detected easily with a candle flame. Wherever there is a hole the flame will be sucked in quickly.

DR. A. P. SANDERS SPEAKS TO GROUP

Mrs. Thomas Sadler, of Orchard Way, received associates of the Council of Home Economics Women in her home Thursday evening when Dr. A. Pauline Sanders, chief of economics education in the State Department of Public Instruction was the main speaker.

Dr. Sanders contributed an enlightening talk upon the subject, "World Food Problems."

Misses Ruth Roth and Helen Vernon shared as special guests.

During the business session, plans were made for a yuletide party December 13 at the home of Mrs. Roy Williams, North Jefferson street.

The group has been invited to hear Dr. Pauline Berry Mack, who will speak November 19, at the meeting of Woman's club.

At the close of the evening dainty refreshments were served by Mrs. Sadler, aided by the co-hostesses, Misses Ruth Wallace and Theima Howell.

Champion War Bond Salesman Back In Harness

WASHINGTON, Nov. 9.—(INS)—Frank Pappas, champion War Bond salesman of Burgettstown, Pa., is back "in harness" again after retiring voluntarily from the town's War Finance committee—and has taken over a self-imposed Victory Loan quota of \$50,000.

In the seven preceding war loans, Pappas sold bonds totalling \$250,000. Recently he inserted a display advertisement in the town newspaper—thanking friends for their loyal bond support in previous loans, and announcing that press of his own business prevented his taking part in the Victory Loan drive. Pappas owns and operates a lumber yard.

After a visit from a committee of businessmen, Pappas inserted a second display advertisement, announcing he was "again in the bond picture" and had accepted the town's quota for individual bonds—other than E bonds—aggregating \$50,000.

Pappas' two elder sons served in the armed forces overseas, and a few days ago he staged a "Welcome Home" party for one of his fighting offsprings.

THE CAR THAT'S REALLY NEW!

1946 OLDSMOBILE

OFFERING THE NEW GENERAL MOTORS HYDRA-MATIC DRIVE

Hydra-Matic Drive is a combination of a fluid coupling and a fully automatic transmission. Gears shift automatically through all four forward speeds, and there's not even a clutch pedal in the car! All you do is step on the gas to go and step on the brake to stop... in a 1946 Oldsmobile with General Motors' new and finer Hydra-Matic Drive.

WITH MANY NEW ADVANCEMENTS

"Look to Olds For All That's New!" Look to America's oldest motor car manufacturer for the newest, smartest thing in 1946 models—and the newest, simplest way to drive. The 1946 Oldsmobile, with General Motors' new and finer Hydra-Matic Drive, is here now!

And it's truly NEW in every sense of the word. The appearance is different from any previous Oldsmobile—with newly tailored lines, smart new front-end design, and newly appointed Bodies by Fisher. The performance is new, due to smoother and livelier "Fire-Power" engines. There are many new advancements throughout

the chassis to provide greater ruggedness and reliability.

Hydra-Matic Drive is new, too. First introduced by Oldsmobile in 1939, and thoroughly battle-proven in fast Army tanks during the war, this great General Motors development has now been made even finer, smoother, and longer lasting than ever... for the new 1946 Oldsmobile.

You are invited to come in, see and inspect this great new General Motors car. Oldsmobile has been building quality automobiles for nearly fifty years. This new Oldsmobile is by far the finest, the best built Oldsmobile of all time!

Dulles Urges Nations Unite Against Enemies

PHILADELPHIA, Nov. 9.—(INS)—

John Foster Dulles, chairman of the commission on a just and durable peace, on Thursday urged that the United States unite against the common enemies—want, fear, disease and intolerance.

Dulles, well-known authority on international affairs, spoke at the opening of a two-day session of the commission in Philadelphia.

He said an enduring peace rests on the answers to four questions:

1. What kind of people are we going to be?

2. Are men of good will going to work together co-operatively?

3. Will the peace settlements reflect principle or mere power?

4. Are we going to make the United Nations organization work?

Dulles called upon the American people to assure establishment of unifying forces by the UNO to offset the divisive influences of peace negotiations.

rather than pushing apart, the permanent way of the future," he said.

"The United Nations organization can assure that if it undertakes

quickly and competently, curative and creative tasks which will develop fellowship among the peoples."

Oak Most Susceptible Tree To Lightning

HARRISBURG, Nov. 8.—Research reports in the Forest Department of England and Wales show the oak tree as the most susceptible to lightning.

In their study, according to the report, oaks most likely to be struck by lightning are the oak, elm, poplar, birch, pine, ash, and chestnut.

The report covers more than five years' study.

It also points out that lightning injury causes a serious loss of wood which is spent in the process of healing the wound, thus the main loss of timber.

POULTRYMEN URGED TO PLAN FUTURE CAREFULLY

In planning future operations, poultrymen should keep in mind that the supply and demand situation influences returns, as well as individual flock management. Reconversion presents problems to the poultry grower, too.

Egg prices are highest from June to December, while broilers sell best from early spring to June and then in the late fall. Prices for food usually are best from December to Easter.

Early-hatched chicks produce more eggs during the period of greatest scarcity. Broilers are ready for market before the bulk of the farm-reared stock gets there. Hens going out of production are sold when the demand is best.

Many poultrymen have found it pays to change their methods to fit in with market conditions. In many cases the labor load can be better distributed, and greater efficiency results by starting at least a part of their chicks in January, February, or early March. A small fall brood, either for sale as meat or as pullet replacements to keep laying pens close to capacity also has been found to be a good practice.

Deny Plans To Import Food To Aid Japanese

TOKYO, Nov. 9.—(INS)—Japan's premier, Baron Kiuro Shidehara, intimated today that allied authorities were ready to put in operation plans for importing food to Japan but this was flatly denied by a spokesman for Gen. Douglas MacArthur's headquarters.

Shidehara declared in an interview that his talks with allied authorities on the possibility of importing food to the occupied country had "already entered the detail stage."

Col. R. C. Kramer, chief of MacArthur's economic and scientific section, declared, however, that no definite plans have yet been formulated to ship food from other countries to Japan for use of the people. Kramer pointed out that the Japanese government was told to submit detailed plans on the subject and submit them to allied headquarters.

To date, Kramer said, no such plans have been submitted.

Shidehara claimed that Japan is unable to feed herself. This statement also met with contradiction. One of the premier's own secretaries said earlier this week that Japan had sufficient food but no surplus for exportation for distribution of supplies.

The premier made a plea for aid to Japan today.

"We cannot obtain necessary food within this country. We must get it from somewhere abroad."

Urge Arabs To Join Discussion About Palestine

WASHINGTON, Nov. 9.—(INS)—Representatives of the Agudath Israel world organization urged Secretary of State Byrnes to exert peaceful pressure on the Arabs to join a round-table discussion of Jewish immigration problems in Palestine.

Following a conference with Byrnes, the delegates told reporters that the secretary assured them he would submit the proposal to President Truman in the near future.

Byrnes' callers were Meir Schenkowsky, executive member of the Agudath council, which represents Orthodox Jews throughout the world, and Michael G. Treu, chairman of the Agudath Israel Youth Council.

In a memorandum submitted to Byrnes, the organization demanded the abrogation of the British white

Up Plans For German Trials

NUERNBERG, Nov. 9.—(INS)—Trial officials at Nuernberg raced against time today to iron out snags which might threaten to delay the prosecution of chief Nazi war criminals.

The prosecution devoted the entire forenoon to consideration of an application by Theodor Kleisch, attorney for Gustav Krupp Von Bohlen and Halbach, asking that the proceedings against the armaments manufacturer be dropped on the grounds of ill health.

A decision also must be made on whether former No. 2 Nazi Rudolf Hess is mentally fit to stand trial. Judge Col. Andrus declared that it was his personal opinion that all defendants in the Nuernberg trial are physically and mentally fit for trial.

1945 Honey Crop Is

Best In Four Years

HARRISBURG, Nov. 9.—Topping all production for the past 3 years, beekeepers of Pennsylvania this year harvested what amounts to a bumper crop of more than 3.25 tons, the State Department of Agriculture said following a preliminary state-wide survey by the Federal State Crop Reporting Service.

The 1945 Pennsylvania honey crop totals 6,516,000 pounds. It is 404,000 pounds more than last year, 260,000 pounds over 1943 production, and 2,716,000 pounds more than the small crop of 1942, an unusually wet year.

The 1945 honey crop was gathered by 181,000 colonies of bees, 10,000 fewer than in 1944. However, the yield per colony this year was 36 pounds, 4 more than the greater number of colonies averaged in the previous year. The yield per colony in 1945 was the highest since 1941.

Huge Supply Of Synthetic Rubber Provided In U. S.

WASHINGTON, Nov. 9.—(INS)—Robert S. Wilson, former director of the WPB rubber programs, said today that United States created a synthetic rubber industry between 1942 and 1944 capable of producing one million, 200 thousand tons annually.

Reflecting the nation's dependence on synthetic rubber, Wilson said that 99 per cent of the natural rubber supply was cut off in February and only 650,000 tons were on hand at that time.

Today, he added, rubber products use 15 per cent of the natural product and 85 per cent of synthetic rubber, compared with 99 per cent natural and one per cent synthetic in 1941.

London Realizes That War Is Over

LONDON, Nov. 9.—(INS)—For the first time since the end of World War II, the citizens and workers in the square mile of the city of London today became fully aware that peace has been restored to the world.

The occasion was the famed "Lord Mayor's Show," celebrating the installation of Alderman Sir Charles Davis, 68-year-old farmer, as Lord Mayor of London for 1945-46.

New York state is said by some to have been discovered by Verrazano, a Florentine in the French service, in 1524 and re-discovered by Henry Hudson in 1609.

Protest By Ellwood Residents

Following is a copy of a resolution sent to President Truman, Secretary of War, and Secretary of the Interior by the American-Hungarian people of Ellwood City and vicinity.

We, the American-Hungarian people of Ellwood City, Pa., and vicinity, are deeply shocked and provoked upon hearing of the decision of Czechoslovakia's provisional government and its president concerning the planned repatriation of the Hungarian population, including the territory along the border, (now by the Trianon Treaty, South Dakota) to the provisions of international law and provide the complete repatriation of the most sacred human rights and the unreserved repatriation of the principle of self-determination.

We solemnly protest against the historic treatment of our Hungarian kin by the government of Czechoslovakia. That government proposes to erect hundreds of thousands of Hungarians into their slave ancestors have inhabited the Uplands for a thousand years. They have committed no crime except that of having been born Hungarians, yet the government of Czechoslovakia plans to dispossess and transfer them from their God-given homeland to impoverished Hungary where nothing but destitution awaits them. This plan is an insult to Democracy for which millions have given their lives during the war just concluded. Such procedure being contrary to the principle of self-determination and to the war aims of the United States will cause rightful embitterment and, ultimately, lead to world-wide upheaval.

In the interest of lasting peace we respectfully appeal to you, the President of the United States, to prevent by making full use of the authority of your Government the execution of this plan which in its brutal disregard for all human rights reveals the minds of those who conceived it as being fully obsessed of the ideology of Nazism.

Respectfully yours,
The American-Hungarian People of Ellwood City, Pa. and vicinity

THE NEW 1946

Cadillac

More Beautiful and Luxurious

... AND POWERED BY THE GREAT VICTORY ENGINE

THERE IS BIG NEWS about Cadillac this year. For Cadillac has really been improved for 1946. Not just in styling—although the 1946 Cadillac is far more beautiful in every way. Not just in comfort and luxury—although here, too, Cadillac has made great strides. . . . Cadillac's improvement is basic and fundamental! Cadillac built its world-famous engine and transmission for the Armed Services as power units for tanks and other motorized weapons. All during the war, while no passenger cars were being built anywhere, Cadillac's engine assembly line continued to roll. And what is even more important—improvement, too, went steadily ahead. The engine and transmission . . . which contributed so much to Allied victory . . . were actually improved more in four years of war than would have been normal in four years of peace! Cadillac not only

had the world's battlefields as a testing ground—but the technical staffs of the army and navy were available as consultants. . . . What an engine this is now! And what a transmission the new Hydra-Matic is! You've never experienced anything even remotely like this "power train" for smoothness, quietness and quickness of acceleration. . . . Improvement, in fact, is found throughout the car. Comfort is greater, handling is easier, roadability is better. Likewise, there is new interior luxury. Wherever you look, in fact, you will be conscious of a new Standard of the World. . . . But the really vital improvement is mechanical. You'll have to take the wheel of this new Cadillac to experience fully what has happened. Do this as soon as you can. . . . And get your name on the list for the earliest possible delivery.

Hopes Grow Dimmer For Agreement On Britain's Request

WASHINGTON, Nov. 9.—(INS)—Hopes grow dimmer today on prospects for an early agreement on current British-American financial talks despite the forthcoming visit to the United States of Prime Minister Clement Attlee.

Even if the conference should reach a settlement satisfactory to Britain's request for a loan of four billions, it was considered unlikely that Congress would act quickly on legislation authorizing such action.

But indication that the financial talks had hit a snag came from Secretary of State James F. Byrnes, who told newsmen shortly before Attlee's scheduled arrival that there was no prospect of "immediate agreement."

AROUND CITY HALL

After the war has been declared by congress to have ended the city should hold civil service examinations for police and firemen. Men now in service will be restored to their jobs. Those now holding temporary positions will be accorded with a certain percentage for having served in time of need. However, for some years prior to the war, temporary appointments, instead of civil service tests and regular appointments provided, which was not in keeping with civil service regulations.

James Glosin, director of streets, today said that permission for a non-city resident to connect property to a city sanitary sewer had not been granted, as published. However, there was a request for such. The city council maintains the city system now is over-crowded and it may be necessary for the city to expend a considerable amount of money in 1946 to keep conditions up to the degree exacted by the state board.

No person other than a licensed operator, has a legal right to broadcast over the city police broadcasting system according to government regulations. Time may come when police may wear two-way radios. They would prove useful at present because police are being dispatched thither and yon in an attempt to capture a wolf in human form who has terrorized several sections by molesting women.

Street department employees are moving leaves from streets. . . . No city property has been confiscated with a city sanitary sewer since council adopted a prohibitive order. . . . City Recreation commission has caused from the county by bid a vacant lot at Laurel and Wilmings-

Washington Students General Doolittle For Fill Christmas Boxes Armed Forces Merger For Junior Red Cross

WASHINGTON, Nov. 9.—(INS)—Sen. James H. Doolittle told Congress today that the Navy's opposition to merging the armed forces in the type of extended military training responsible for developing an officer's development between the First and Second World Wars.

The agreement that the Eastern Air Corps gave the Senate Military Affairs committee as an answer to a warning that the Navy was to use its defense and defense and would have equal representation in a single department of armed forces.

Doolittle declared that he was the one who had been in the old Baker House which in 1914 converted the new one into a modern and required the air corps to a substantial meeting.

Stamp, Bond Sales Since September \$12,860 In Schools

Highland Has Highest Pupil Average, Senior High Piles Up Largest Total

Bringing up its average-per-pupil as well as its total, Senior High school now has the largest total of stamps and bonds sold between the opening of school and October 26, according to Miss Nannie L. Mitchell, chairman of the public schools stamps and bonds committee. The total sales so far this year amount to \$12,860.95.

Highest average per pupil, however, is found at Highland school, where the students' purchases average \$2.02 per child. Seven schools which have an average of more than a dollar per student are: Highland, \$2.02; Thaddeus Stevens, \$1.87; George Washington, \$1.85; Lincoln-Garfield, \$1.42; Arthur McGill, \$1.34; Mahoning, \$1.32; and Senior High, \$1.08.

Six schools which have a total of more than a thousand dollars worth of stamps and bonds purchased since school opened are: Senior High, \$2,176.30; Mahoning, \$1,744.20; George Washington, \$1,349.55; Ben Franklin, \$1,338.55; and Thaddeus Stevens, \$1,081.80.

Other totals are: Arthur McGill, \$852.45; Highland \$849.50; Rose avenue, \$531.40; Oak street, \$452.65; Pollock, \$427.45; Crofton, \$227; West Side, \$187.80; North street, \$157.80. Altogether, the public school children have purchased a total of \$774,376 since the bond drives started. Totals include all sales through the schools but averages per pupil include pupil sales only, Miss Mitchell explained.

Stassen Recommends Super-Air Force To Keep Peace In World

Would Arm Air Force With Atomic Bombs To Keep World In Line With Peace

NEW YORK, Nov. 9.—(INS)—A super-international air force armed with atomic bombs, to maintain peace throughout the world, was recommended today by Capt. Harold E. Stassen, USNR.

Stassen also demanded a global ban on further atomic bomb manufacture and compulsory registration of all nuclear research scientists.

Presenting his plan before the annual meeting of the Academy of Political Science in New York, the former governor of Minnesota suggested that five United Nations squadrons of atomic bombers be based at strategic points around the globe, protected by 10 fighter squadrons, in constant readiness to stamp out any future war of aggression.

He further suggested that a commission of distinguished scientists be established with power to enforce such a program, which would be financed through a small tax on international travel.

TWO ARE BURNED
PITTSBURGH, Nov. 9.—(INS)—Two women were reported in "fair condition" today after a gas stove exploded starting a fire which swept through a two-story brick house.

The victims were Mrs. Prestell Sims and Mrs. Clara Heard. They were treated for face and back burns. Damage was estimated at \$2,000.

Victory Bond Rally At Thaddeus Stevens

Pupils Dramatize Bond Campaign At East Side School Thursday Afternoon

If the three defeated Axis chiefs, Hitler, Mussolini and Hirohito, could have been present at the Thaddeus Stevens school on the East Side Thursday afternoon and had seen the display of enthusiasm among the pupils there over the Victory Bond campaign, they would have been given a lesson of why the U. S. could not be defeated.

The boys and girls, under the direction of Mrs. Emma Richards and Mrs. Helen Thompson, presented an outstanding program, entitled "War Savings Zoo" with several scholars depicting a number of animals from an imaginary zoo. Each pupil recited a clever saying from the animal connecting it up with the purchase of bonds and stamps, while the entire school chimed in with an appropriate song written to the tune of "The Man on the Flying Trapeze."

Following the program, the National Anthem was sung and then the pupils began to march to the various booths set up in the school to purchase their supply of Victory Savings Stamps, singing such songs as "My Buddy," "Ka-Ka-Katie" and other melodies as they marched.

Mrs. M. Shirer Will Speak Here

Mrs. Margaret Shirer, of Washington, D. C., will be the main speaker at the homecoming, to be conducted this evening at 7:45 o'clock in the First Pentecostal church, Pearson street. Mrs. Shirer spent two terms as a missionary in Africa. She and her husband served the local congregation while on furlough in 1939.

Another feature of the meeting will be a brief review of the formation and early struggles of the First Pentecostal church. Miss Alice Pearce, who with her mother, was active in its organization, will speak. Since the church was organized in 1920, 28 of its members have entered the ministry or missionary work. Of this group 23 are serving as ministers in this country, while three are foreign missionaries and three others are doing home missionary work in the Kentucky mountains of our country.

Pfc. Harold Kelley Given Discharge

Pfc. Harold E. Kelley of West Washington street, has returned from Indiantown Gap, where he received his honorable discharge from the army, after 28 months of service. He was attached to the 87th Medical Battalion, and served with the First Army. After recovering from wounds received in action, he was placed with the 13th Medical Depot Company. He earned three battle stars and a bronze arrowhead for his ETO ribbon, the Purple Heart, Presidential Citation, Good Conduct Medal, and the Meritorious Service Plaque.

Cpl. William Morris Leaves The Service

Cpl. William C. Morris, son of Mrs. Nora E. Morris, rear 259 West Fifth street, arrived home on November 7, with his honorable discharge from the Army. Spending three years in the service, Corporal Morris has been in Italy, Africa and the Mediterranean area.

NEW LOW PRICE FOR HEARING AID

Western Electric and Bell Telephone Laboratories engineers have brought better hearing within the reach of thousands of additional hard-of-hearing individuals by producing a new model, high in quality, but priced at the lowest price ever placed on a Western Electric electronic hearing aid.

The new instrument, Model 63, is precision-built and offers the user a wide range of frequencies for "Full Color" hearing, giving more of the tones and overtones of speech and sound. Yet it costs only \$89.50 (home conduction receiver or molded ear-piece extra). Free demonstration at

May Attempt To Broaden Powers Of Probing Body

WASHINGTON, Nov. 9.—(INS)—Legislative action to give each member of the Pearl Harbor investigation committee complete freedom of inquiry was promised today by one of its protesting Republican members.

Rep. Gearhart (R., Calif.) announced that he will introduce an amendment designed to "broaden the powers" of the joint resolution which created the Senate-House committee just two months ago.

Gearhart's statement was made after the Democratic majority of the committee for a second time voted down a minority request for each committee man to have the right to inspect government records. It also followed President Truman's order for all government employees to volunteer information on the 1941 disaster to the committee or its individual members.

May Be Futile
Other Republicans on the 10-man committee indicated, however, that legislation might be futile even if enacted before public hearings begin on November 15. Rep. Keefe (R., Wis.) pointed out that President Truman still could deny individual members access to records.

Gearhart said nevertheless that his amendment would be offered in the next two or three days. He explained that it would give each

member "full power of investigation, subject to the requirement that the member report what he finds to the full committee."

He predicted that such a proposal would win a lot of support in the House, but admitted it would be difficult to push through the administration-dominated rules committee.

Meanwhile, Gearhart and Keefe planned another visit today to the naval hospital at Bethesda, Md., to "test the liberalization of the rules" by interviewing Capt. Alvin Kramer, of Miami, Fla., whom they described as a key witness.

The two Republicans told the House Tuesday that Kramer was a patient in the hospital's psychiatric ward. Kramer they said had important information on the so-called "winds" messages used by Japan to inform its diplomats abroad whom it would attack in 1941.

Lawrence To Quit As State Chairman

PITTSBURGH, Nov. 9.—(INS)—David L. Lawrence, mayor-elect of Pittsburgh, said today he would relinquish the chairmanship of the state Democratic party upon being sworn in as the Steel City's chief executive.

He will take over the duties of Pittsburgh mayor on January 7. Lawrence said he would continue as Pennsylvania's Democratic national committeeman.

Mrs. Fred Brown's Father Dies Today

Funeral To Be Conducted At Grove City On Next Monday Afternoon

Wallace J. Kelly, 76, resident of Grove City since 1903, died at his home 306 North Broad street, Grove City, at 5 a. m. this morning, following an illness of several weeks.

Mr. Kelly was born on October 31, 1869, at Adamsville, Crawford county, son of Charles S. Kelly and Cynthia C. Kelly.

A farmer, by profession, before coming to Grove City, Mr. Kelly operated a trucking business, a stable, and later a feed store.

He was a member of the United Presbyterian church.

The deceased is survived by his widow, Mrs. Nettie M. Wald Kelly; four sons, Colonel Oakley Kelly, Army Air Forces, enroute to Montgomery, Alabama from Denver, Colorado, when he was notified of his father's serious illness; Waid and Charles Kelly of Grove City and Arthur of California; and one daughter, Mrs. Fred Brown of New Castle.

Four sisters survive: Mrs. Charles Steadman and Mrs. Harry Couter of Grove City; Mrs. Ralph Couter of Atlantic, Pa.; and Mrs. Wesley Book of Lawrence county.

Seven grandchildren and one great-grandchild survive.

IN THE OPEN

Armed with a light garden spade and a bucket, we started out on the annual late fall jaunt for weeds to add to the growing list of wedding flourishes about the home promises. The day was clear and crisp, ideal for heavy timber hiking among the ledges and along the rocky hillside haunted by these woodland dwellers.

As our 1937 vintage conveyance crunched up a short rise, a venerable groundhog crossed the roadway about a hundred feet ahead and halted by a culvert in a weed-tangled gully at the roadside. This grizzled old fellow did not seem to fear the car. When we came to a halt he sat up and looked us over carefully and then went calmly on about his own business.

We had an enjoyable visit with Mr. "Whisper" for some reason he seemed to prefer the tender young shoots of elderberry which were still green along that sunny bank. Finally he nibbled his way up over the bank and into high grass where he was lost to view. I shifted sharply and he set me in a hurry. Then he ambled away and we followed suit.

Crow Convention
We were following a winding ridge when a crow convention came into view. Again we stopped the car to watch more than a hundred of these, black rascals fly over heading into the wind for some distant rendezvous. They must have been on serious business, for they made not a sound, but flew slowly along in grim, unperpetual manner. The crow is a bird of many moods, but he usually manages to be quite noisy except about his nesting grounds.

The sun had long passed the high noon hurdle when we struck into the deep woodland where dwell many varieties of our beautiful native ferns. We had barely gotten the "feel" of the woods when we came across a large clump of the American Maidenhair. To my mind this is far and away the most beautiful fern of them all. One good clump of this graceful plant went into the basket.

A short distance from the maidenhair, close against a gray boulder, grew a specimen clump of the common Christmas fern. This evergreen fern is an old friend to all who work the winter woods. It is quite sure that the Christmas fern will do well in outdoor cultivation, provided the soil is deep enough and some moisture is available.

Ebony Spleenwort
Growing almost out of the solid rock, in the thin soil toping an outcrop which dropped away to a sheer cliff, we came across many clumps of the erect little fern called ebony spleenwort. This is a pretty little fellow, quite common hereabouts. We added a clump or two to our collection, but I have my doubts that the spleenwort will be happy away from his rock ledge.

I was peering over the cliff, mapping a downhill course after the face of the ledge when I noted the after part of a short stocky snake lying quietly on the ledge two feet

below. I could not see his head but the body was checkered with diamond markings and the color was similar to the common watersnake. With the spade I sliced him neatly through the middle and the front half thrashed over the side into the bushes before I could make positive identification.

We scarp proceeded with the instinctive reaction which spells "comprehend" but I could not say for certain that I had killed one of these unpleasant creatures. However we revised our plans and followed another route down through the outcrops. Along the way we added a lump of the curious berry bladderfern to the day's haul, and noted a lone trout of the old little stream.

Grows Little Bulblets
The berry bladderfern has the peculiar habit of growing little bulblets on the under side of the mature fronds in mid-summer. These bulblets are about the size of a sweet pea seed. When they fall upon moist soil these "bladders" root quickly and form new plants. The green fern gets its name from the green cases, which resemble tiny grapes.

The bright scarlet clusters of Jacob-moche-Pain berries lay scattered over the forest floor. In the clearings along the edge of the woods we came across a large clump of a wild strawberry blossom far off ahead.

The sun had almost called it a day when we found the one and only sacktail in the forest. With proper respect and a little luck, one can find them. They will not be done business along a shady foundation wall which can stand a little bawling.

Jameson Hospital Staff Has Program

Dr. Morris Davis Presents Interesting Program At Regular Session

On Thursday evening, the Jameson Memorial hospital staff, conducted their regular monthly meeting in the auditorium of the hospital with Dr. S. W. Perry, Dr. Morris Davis and Dr. J. B. Barrett.

Two staff physicians, recently discharged from the service and soon to resume their staff activities were present: Dr. W. J. Hinkson and Dr. J. B. Barrett.

Dr. Morris Davis of the Geological staff service, conducted the program, and presented his subject, "Cancer of the Prostate Gland." A discussion followed the presentation.

At the conclusion of the program, refreshments were served. December 13 is the next staff meeting.

Due to a shortage of electricity, New Zealand bread-making stations have been ordered closed for certain periods Monday to Friday.

Charge Massacre To Chinese Communists

LONDON, Nov. 9.—(INS)—Chinese troops in China were charged today with the massacre of Chinese and foreign civilians and soldiers of the "Kommunist" central army.

According to a Chinese newspaper from the Chinese Central News Agency, the communists took over the town some 120 miles west of Tientsin after national army troops were forced to evacuate the community because of lack of ammunition.

On Thursday evening, the Jameson Memorial hospital staff, conducted their regular monthly meeting in the auditorium of the hospital with Dr. S. W. Perry, Dr. Morris Davis and Dr. J. B. Barrett.

Two staff physicians, recently discharged from the service and soon to resume their staff activities were present: Dr. W. J. Hinkson and Dr. J. B. Barrett.

Dr. Morris Davis of the Geological staff service, conducted the program, and presented his subject, "Cancer of the Prostate Gland." A discussion followed the presentation.

Armistice Dinner To Attract Crowd

Indications Point To Capacity Crowd In Castleton Ball Room Saturday Night

Indications at noon today pointed to a capacity crowd in the Castleton Ball Room Saturday night, November 11, when the Armistice Dinner will be held. Secretary James Fletcher said today that a few more men reserved for the dinner would be gone before Saturday morning.

Martin Foresees Congress Gains

Republican National Leader
Cites Some Trends In
Election Of Week

WASHINGTON, Nov. 9.—(INS.)—House minority leader Martin today forecast sweeping congressional gains in Connecticut, Pennsylvania, Ohio and California in 1946 which would insure Republican control of the House.

The Republicans must gain 28 seats in next year's elections in order to obtain a clear majority in the House where the Democrats have been in control continuously since 1930.

GOP Gains Made

Martin said that Republican successes in Tuesday's election in Connecticut where the GOP carried New Haven and Hartford for the first time in years, and in Pennsylvania, where gains were registered in Philadelphia and two statewide judgeship contests, augured well. The GOP leader declared:

"On the basis of Tuesday's election I'd say we ought to make substantial gains in Connecticut next year. The state's congressional delegation consists of four Democrats and two Republicans."

Martin predicted that Gov. Martin of Pennsylvania would be a candidate for U. S. senator in 1946 and this should strengthen Republican chances in the Keystone state, where House delegation is made up of 18 Republicans and 15 Democrats.

Bricker For Senate

The Republican leader predicted also that former Gov. Bricker of Ohio would run for the Senate next year and said his popularity would aid the Republican congressional ticket there. The Ohio delegation is composed of 17 Republicans and six Democrats.

Gov. Warren of California would be a candidate for reelection, Martin added, "and that should help us recoup some of these big losses we sustained there." The California delegation contains 16 Democrats and seven Republicans.

Martin discounted the sweeping Democratic victories in New York City commenting that "It's just like the Dutch carving Holland."

Martin listed Connecticut, Pennsylvania, Ohio and California as "critical" in next year's election. The four states send 85 members to the House, of whom 44 are Republicans and 41 Democrats.

The House now consists of 233 Democrats, 138 Republicans, one Progressive and one American Laborite. There are two vacancies from New Jersey and Illinois to which Republican candidates were elected Tuesday.

October Also Proves Wetter

Excess Of Precipitation Is Reported
During Month By Local U. S.
Weather Observer

October proved a little wetter and a little cooler than the normal, the statistics gathered by Baxter F. Johnston, U. S. weather observer here, reveal. There was a variation of almost a degree a day in the temperature, and the precipitation for the month was 1.15 inches above normal.

The mean maximum was 63.6 degrees, the mean minimum, 39.5 degrees and the mean or average for the month was 51.5 degrees. The normal mean for October is 52.4 degrees. The highest was 78 degrees on the 1st and 19th, and the lowest was 29 degrees on the 15th.

Precipitation during the month amounted to 3.95 inches. The normal for October is 2.80 inches. The greatest fall in 24 hours was 1.52 inches on October 2. Days with .01 inches or more amounted to 14, and there were two days with over an inch. Only a slight trace of snow was noted during the month.

Days clear were 15, partly cloudy 9, and cloudy 7.

In October last year the temperature was one degree above normal.

Pitt Players Scorn Petition Against Coach

Pitt Panthers Back Of Coach Clark Shaughnessy 100 Per Cent Record Attacked

COACH ANSWERS OUSTER LEADERS

PITTSBURGH, Nov. 9.—(INS)—The Pitt Panthers were on record today, the eve of their game with Ohio State, that they were 100 per cent behind their coach, Clark Shaughnessy.

A spokesman for the team, who asked not to be named, disclosed the players took a meeting last night and decided that petitions now in circulation on Pitt's campus and which asked a "new deal in football" starting with a new coach, were silly.

"We are behind our coach and will try to win the Ohio State game for him," the player said.

"A number of us have been approached by circulators of the petition but none of us has signed and I personally get my hands on one. I'll tear it up."

Shaughnessy answered the petition saying:

"It is sponsored by trouble makers who are unfriendly to the institution and who are stimulated by people with ulterior motives."

"Instead of giving us credit for having a live team, they try to capitalize on our losses."

The petition, addressed to Chancellor Rufus E. Ransdell and signed by over 500 students, charged that Shaughnessy did not have a good record at Pitt and did not have a good record when he came to Pitt.

Students circulating the petition said they did not intend to submit it until it carried 2000 signatures.

An anti-Shaughnessy demonstration was scheduled to take place yesterday during a pep rally. Students said, but for some reason failed to come off. President John G. Bowman attended the pep meeting for the first time in weeks.

Shaughnessy has a record of nine wins against 14 losses at the Oakland institution.

PENN FACES COLUMBIA

PHILADELPHIA, Nov. 9.—(INS)—Coach George Munner polished up his Penn-Vanilla squad's pass-defense today in expectation of an aerial circus from the Columbia Lions, who invade Franklin field tomorrow with an unblemished record.

The Quaker second team came in for a long workout yesterday with Munner believing that reserves may play an important part in pulling the game out of the mire for the Red and Blue.

Age No Bar

AT 32, BILL HEERDE, a senior at Knox College, Galesburg, Ill., is captain of the football team, undefeated to date. Heerde, who is a war veteran, having seen service on Guadalcanal, Saipan, Iwo and Tarawa, has been playing football for 15 years from his prep days at Moline, Ill., high school. After high school he worked in a factory for eight years. At 26 he enrolled in Knox college and played with the team for three years before the war interrupted his education. He came back again this year and is the star.

Weather Is Theme Of Band Display At Game Tonight

Taking its cue from the rain-snow clouds overhead, the New Castle High school band has prepared a "weather" show for tonight's game with Warren.

Promising to present the show unless there should be rain heavy enough to damage the instruments, the young musicians and twirlers will have all the appropriate symbols of weather, such as umbrellas, raincoats, lightning and thunder. This is the final show of the season, and it promises to match the records set by other highly original performances of the local band. Warren High school is bringing its 60-piece band to the game, along with the largest contingent of twirlers ever to perform at Taggart stadium.

WELL NAMED

PITTSBURGH, Nov. 9.—(INS)—The smoky city is well named. Dr. I. Hope Alexander, city health director, said today that if the records of the past half century repeat themselves, 63 per cent of the city's sunshine will be blotted out in the next five months.

HERE AND THERE IN SPORTS' LAND

MICKIE HUFF, the former infielder and who yet can field a ground ball and poke a long hit to the outfield takes time out from his duties at the Universal Sanitary Pocket to circulate among the baseball fans uptown. "I like Monsey's battery in civies after doing his 'bit' in military service. It's good black cigar. It is a second good black cigar. Arch Ward of the Chi-Trib says: 'If Army defeats the Irish Saturday by four or five touchdowns, it will be due in all probability to West Point's master back.'"

Crowd of local friends of "Sarge" Bob Adkins, right halfback of the Green Bay Packers will watch him play against the Rams in Cleveland Sunday. The "Sarge" is now plain Bob, having been discharged from service some time ago.

Frankie Moran, local welterweight southpaw, is taking off some superfluous weight in work-outs and hopes to toss punches before winter succeeds fall. Earl Molitor, the American Legion League baseball man is already studying plans for 1946 baseball. Ne-Ca-Hi Principal Clare Brook and Public School Policeman Bob Stewart conferred with city police authorities yesterday relative to proper policing of the Warren-New Castle high game tonight. There will be 10 city bluecoats plus the plainclothes squad in and around the stadium. It will be the crowd of crowds judging from the scarcity of pasteborders.

Harper Dick, former race hess owner and driver, recently was in a peck of difficulty judging from what we heard. His car blew a tire just when he needed said tire which must have reminded Dick of a horse throwing a shoe on the last eighth of a trot. There was a time once when a fellow could see a man hereabouts but now one must travel to see a pair of cock birds in a pit. Billy Conn showed only momentary flashes of the form which carried him to the top of the heavyweight ranks when he boxed an exhibition against Barcat Jones at Kansas City, according to an I. N. S. report.

Every member of the Lawrence County Sportsman's Association should be present at the Tuesday evening session when a proposed boost in dues and construction of a club house at Harbor will be decided upon. Mayor John Haven, Police Chief Bob Hanna and Sgt. Carl Wallace while a hunt for five rabbits and two birds. Sam Haycock, the mayor of Sylvan, Heilich, circulated in town a few nights ago, over-civilians having been quiet at his club house. There's more football than bathing pool take here nowadays. Here's something caddies may find pleasing: Tam O'Shanter Country club, Chicago, paid bonuses to its totalling \$2,000.

Fair Or Foul

By LAWTON CARVER

BOSTON, Nov. 9.—Bill Southworth is the recipient of one of the richest managerial contracts in the history of baseball and all he has to do to make it good is win. He is going to be paid \$120,000 per three years, or \$40,000 a year, if there is anything rough about that.

"You can say that \$100,000 for his contract is very conservative," said Louis Perini, president of the Braves, when asked if it were true that Southworth was lured away from the St. Louis Cardinals for \$120,000. It took all of the Cardinal Southworth out of the Cardinal camp. For more than 20 years he had been with Owner Samuel Breadon in one capacity or another.

Like Man Paroled

As he sat down and talked about his new job he was like a man who had just been paroled. He won three pennants and two world championships for the Cardinals and all told won for them eight pennants going down through their farm teams.

He now is mixed up with a ball club whose owners snap the rubber band on a bank roll so loud that it sounds like artillery fire. And any time they snap it they mean business.

Plenty Of Money

Perini has several millions lying around loose to buy ball players and his partners are rich with that crude stuff called lettuce or folding money. Guido Rizzo is said to be so rich that he buys millions of the dozen just for amusement. Joe Maney, the third partner, has \$300,000,000 in postwar contracts coming up. These guys are not kidding. They want a pennant for Boston.

There is a report out here that they are prepared to hire Tim Lincecum as a batting practice catcher. Mr. Lincecum is the multi-millionaire who owns the Boston Red Sox. He's spent several million buying talent without giving Boston a pennant.

Tough Drinkers

Southworth was told that the club he is taking over is one of the toughest drinking outfits in the history of baseball. "I'll handle that," he said. "Ball players like anybody else might get into bad habits when they haven't got anything to strive for. From here on we are trying to win pennants."

His job is not as tough as it may seem. Due to the war and one thing and another, the New York Giants are washed up for the next couple

Army Is Favored Over Notre Dame In Game Saturday

Do Not Expect Army To Run Up Any 59 To 0 Scores As They Did Last Year

FAVOR OHIO STATE TO DEFEAT PITT

By CHARLES EINHORN

International News Service Sports Writer
NEW YORK, Nov. 9.—A supporting case of 25 red hot college football games will end national backing to the two principals—Army and Notre Dame—for tomorrow's kaleidoscopic gridiron card.

As for the principals themselves—well, Army looks to repeat its 59-0 shattering of the Irish last year. The score may not be that authoritative, but you can bet your boots the spirit will be willing. Army does not figure to lose.

Penn-Navy Favored

Two other outstanding games headline the east card, with unbeaten Columbia facing Penn in Philadelphia and unbeaten Navy meeting Michigan in Baltimore. Penn and Navy figured slight favorites in the pre-game wagering.

Elsewhere in the east Dartmouth figures to topple Princeton; unbeaten Temple looks to edge Penn State in a honey of a contest; Yale stands to rack up its 500th football victory at the expense of Brown; Cornell figures to down Colgate.

The Indiana-Minnesota clash at Minneapolis headlines the midwest card. The Hoosiers, currently atop the big time heap, are favored to win, although it may be a close one.

Ohio State Over Pitt

Ray Elliott's fighting Illini will probably rack up their first conference win at the expense of Iowa's talent-starved Hawkeyes. Northwestern should outdue Wisconsin.

The conference play, Ohio State rules heavy favorite over Pittsburgh. Purdue should breathe to an easy one over Miami University. Marquette ought to humble Kansas and East Lansing will see a tossup game between Great Lakes and Michigan State.

Texas A. & M. is a thornball favorite to stop S. M. U. in the prominent tussle of the southwest. Bobby Layne, all-conference passing star last year, is back and should lead Texas to a victory over Baylor. Rice and Arkansas meet in a tossup, but T. C. U. should have no trouble at the hands of Texas Tech.

Bears Favored

Utah and New Mexico tangle in a red-hot Rocky Mountain clash, with both teams figured about on a par. Along the coast, California is given an upset chance over Southern California. St. Mary's great eleven should wade through Fresno State. College Washington is selected to triumph over Oregon State, but the dice can fall either way in the Oregon-Washington State fray.

Georgia Tech's passing attack may stop Tulane and L. S. U. Tigers look to humble Mississippi State in the two top games on the southwest card. Tennessee is favored over Mississippi and Duke over North Carolina State.

Will Put 3,500 Seats On Sale

In case you missed the announcement last night in the paper, there is 3,500 field and bleacher seats being put on sale tonight at the stadium by New Castle officials at 645 o'clock.

There are 500 tickets for field seats in front of the concrete stands at 70 cents per ticket bought at Gate 2 at the south end of the stadium. There are 3,000 western and southern bleacher seats going on sale at the Cunningham avenue gate and also at Gate 2 (pass Gate 1). No tickets are being sold at the two windows in the front of the stadium. The bleacher seats will go at 60 cents per ticket.

HARRISBURG.—The thief who robbed Julius Albin's Cafe really must have been hungry. Among the loot was an 18-pound ham.

Warren Hi Recap Denotes Power

A composite account of the eight

years that Warren has played in the year reveals the power-laden scoring attack. Warren has piled up 1,814 yards on passes and rushing of the ball 2,037 yards rushing with 237 lost rushing and 14 yards on the line. Warren has scored 100 points in the last four years. Warren has made a total of 60 first downs in the eight games, and the opponents 44. Warren's pass record of but two completions in 20 attempts, speaks volumes for the speed of the backfield and the power therein. Warren has not had to resort to many passes, having scored 18 touchdowns without calling forth the aerial department.

The Warren opponents have thrown 54 passes and made 12 of them good for a total of 195 yards.

Chicago Seeking Army-Navy Game

CHICAGO, Nov. 9.—(INS)—Mayor

Edward J. Kelly said today he and other city officials would begin a campaign immediately to bring the annual Army-Navy football game to Soldier Field in Chicago in 1946.

His statement was inspired by the observation of Secretary of War Robert Patterson, that he thought it would be a good idea to hold the game in different parts of the country each year.

Fourteen in Last Game

New Castle will see 14 of the stars in battle for the last time tonight, and it will be with regret that players such as Bill Walls, Buzz Padula, Sammie Flora, Bob Reed, Art Hill, Lynn Betts, Jimmy Padula, George Toner, Jim Garberry, all regulars, must leave our midst. Then too there are such fine reserves going as Ferguson, Ford, Bob

Final Game Will Draw Throng To Stadium Tonight

New Castle Plays Highly Favored Warren Ohio Harding

Fourteen Youngsters In Final Game For New Castle, Kickoff At 8 P. M.

With "big game" atmosphere prevailing, countless thousands of football fans will send their way into Taggart Stadium tonight, through packed turnstiles, for the 13th renewal of a grid relationship between New Castle High and Warren O. Harding High, that began back in 1915. The kickoff, slated for eight p. m., will find an estimated 10,000 to 12,000 crowd on hand.

Never in the history of New Castle High has a game caught the fancy of the crowd as this meeting. New Castle takes a highly favored Warren team, one that holds four straight wins over a Phil Bodenbaugh coached juggernaut, and that's saying plenty.

Enthusiasm for this 1945 battle has been running rampant in both cities for weeks. The fans, the players, have talked about nothing but the "big game" that is just a few hours away. It's the end of the trail for 14 of the New Castle players tonight. They want to win this last one for Phil Bodenbaugh. It's going to be a battle right down to the final whistle.

New Castle Ready

The earlier general opinion that Warren would win this one by three or four touchdowns has undergone rapid revision, as New Castle in the past few games has shown a marked tendency to disregard tradition and come out with the flaring. One reason is that New Castle has kept on winning after that Alabama 6-to-6 upset, have won the last four games in spectacular fashion.

While Warren has tied Massillon and Campbell Memorial and only beat Niles last week, 19 to 6.

New Castle High ended training for the game Thursday night with a time-up signal drill under the lights at the stadium. The boys looked in fine fettle as they tore up and down the green-stuffed stadium floor and with a spirit and dash that made one stop and think that here was a team arrived at greatness for the final game. The squad, with the exception of Buzz Padula, A. Tate and Lynn Betts, looked in fine physical shape.

Billy Southworth Starts To Work

New Manager Of Braves Will Rebuild Team, For 1946 Pennant Race

BOSTON, Nov. 9.—(INS)—Billy Southworth, new manager of the Boston Braves, today began his job of rebuilding the team for the 1946 pennant race.

Southworth was named manager of the Braves Wednesday after Sam Breadon, president of the St. Louis Cardinals, had agreed to release Southworth from his 1946 contract to manage the Cardinals.

The veteran manager's first action as manager of the Braves will be to attend a luncheon in Boston today at which he will meet baseball writers and some of the fans.

Need Southworth "With a top-flight manager like Southworth, we can go places," Quinn said. "In his career with the Cardinals he finished in first place three times, second twice, third once and fourth once."

Southworth will succeed Del Bissone as manager of the Braves. Bissone, it was said, will remain in the Braves organization.

The terms of the contract Southworth signed with the Braves was made public but it was understood that he will receive a boost over the \$20,000 a year he is said to have received from the Cardinals.

General Manager Quinn was enthusiastic over the signing of Southworth. He said the deal was finally made by Lou Pini, president of the Boston club in a telephone conversation with Breadon.

"Billy's record speaks for itself," Quinn said. "He probably has the best record of any National League manager. His clubs have won 620 games and lost 346 for an average of .642."

FINAL GAME WILL DRAW THROTTLE TO STADIUM TONIGHT

(Continued From Preceding Page) Post, Jim Thomas, Pete Stack and Richard Jacobs.

These boys deserve a big hand tonight when they trot out to battle the invading Ohio gridders. Every last one of them have played well, have given their best, and will try to bring Warren's mastery to an end tonight.

Those fortunate enough to get inside the stadium enclosure tonight will see a schoolboy battle that smacks of the big league stuff.

Ferguson Ends Muskingum Grid Career Saturday

Former New Castle High Star, Out Of Air Corps, Will Finish Football Career

NEW CONCORD, O., Nov. 9.—Two Muskingum college griders will be playing their final game for the Fighting Muskies when Coach Ed Sherman's team clashes with the Fletcher Hospital soldiers in McCosh stadium here at 2 p. m. Saturday.

Winding up their collegiate football careers will be Jack Graham, of Coshocton, left end, who has been appointed acting captain for the Fletcher game, and Dave Ferguson, New Castle, Pa., who probably will start at left guard.

Both Graham and Ferguson were in the Army in World War II, the former in the infantry and the latter in the air force. Graham received a medical discharge and entered Muskingum in 1944 as a transfer from a southern school. Ferguson, a Muskie line man before he went into the service, was handicapped by not getting back to college until the middle of the current season. As a consequence, he has not seen much action of offense, although he has been sent in for considerable defensive play in recent games.

Declares France To Surprise World In Atomic Research

PARIS, Nov. 9.—(INS)—Frederic Joliot-Curie, distinguished French physicist, declared today that France will surprise the world in the field of atomic research.

In an exclusive interview with International News Service, Joliot-Curie pointed out that the number of researchers in the field has been doubled since the liberation of France 14 months ago. Moreover, he added, many new laboratories have been established.

Joliot-Curie, who is chairman of the government committee for atomic energy studies, stated that four French scientists now have knowledge of the manufacture of the atomic bomb. He listed them as himself, his wife and collaborator, Irene, Pierre Auger and Francis Perrin.

The dark-haired, modest-mannered scientist who pioneered efforts to split the uranium atom was interviewed in his office at the Quai Dorsay, overlooking the banks of the Seine. He made an eloquent appeal for international control and cooperation rather than secrecy in dealing with the subject of atomic energy.

WOULD END BUSINESS PITTSBURGH, Nov. 9.—(INS)—Steel city automobile dealers said today they would be forced to quit business if the OPA cuts manufacturers' discounts to 12 per cent.

The discount is supposed to cover their expense of operation and profit. It averaged between 20 and 25 per cent before the war.
